STILNOVO

Catalogue 2021-22

Lighting fixtures.
Apparecchi per l'illuminazione.
Beleuchtungskörper.

Post-World War II Italy established itself internationally thanks to the happy combination of industrial design and the most famous names in architecture. Stilnovo was one of the first companies to transfer this combination to the lighting sector: since its foundation in 1946, it has never ceased to fascinate historians, collectors and design lovers.

L’Italia del secondo dopoguerra si è affermata a livello internazionale grazie alla felice combinazione tra il disegno industriale e i più celebri nomi dell’architettura. Stilnovo è stata una delle prime aziende a trasferire questo binomio nel settore dell’illuminazione: dalla sua fondazione nel 1946, non ha mai smesso di affascinare storici, collezionisti e amanti del design.

Nach dem Zweiten Weltkrieg etablierte sich Italien international dank der glücklichen Kombination von Industriedesign und den bekanntesten Namen der Architektur. Stilnovo war eines der ersten Unternehmen, das diese Kombination auf die Beleuchtungsbranche übertrug: Seit seiner Gründung im Jahr 1946 hat es Historiker, Sammler und Designliebhaber immer wieder fasziniert.

Stilnovo today.

Stilnovo oggi.

Stilnovo heute.

Today Stilnovo is part of Linea Light Group, world leader in LED lighting, from which it has inherited a collection of light and contemporary lamps, presented in this catalog together with some re-editions of magnificent icons of the past, designed by the Masters of 20th century design.

Oggi Stilnovo fa parte di Linea Light Group, leader mondiale dell'illuminazione LED, da cui ha ereditato una collezione di lampade leggere e contemporanee, presentate in questo catalogo insieme ad alcune riedizioni di magnifiche icone del passato, disegnate dai Maestri del design del '900.

Heute ist Stilnovo Teil der Linea Light Group, dem weltweit führenden Unternehmen für LED-Beleuchtung, von der es eine Kollektion von Licht- und zeitgenössischen Lampen geerbt hat, die in diesem Katalog zusammen mit einigen Neuauflagen großartiger Ikonen der Vergangenheit präsentiert werden, die von den Masters of entworfen wurden Design des 20. Jahrhunderts.

Buonanotte

1965

Giovanni Luigi Gorgoni

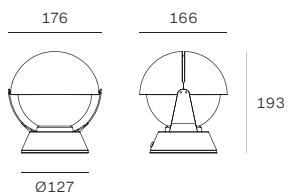

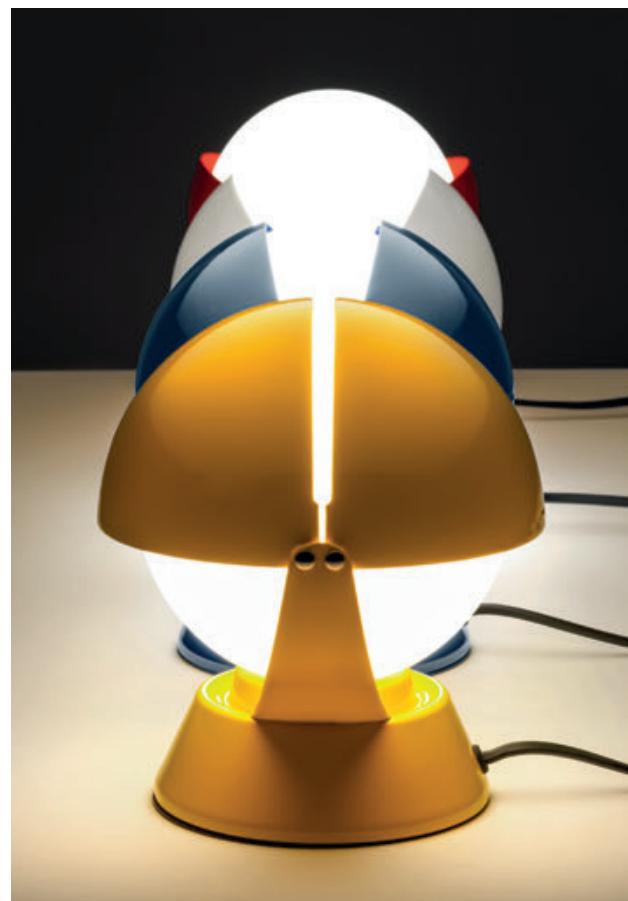

Buonanotte is a fun lamp that can be adjusted by rotating two metal shades that control the light beam simply by turning the spherical diffuser any way you please. With a simple gesture, the atmosphere changes: open for reading or closed and dimmed for sweet dreams. • **Metal body painted in white, yellow, red, blue finishes. Duplex glass diffuser, 5W 2700K E14 LED bulb included.**

Buonanotte è una divertente lampada regolabile mediante la rotazione di due quartine in metallo che, mosse liberamente sopra il diffusore sferico, ne controllano il fascio luminoso. Con un semplice gesto cambia l'atmosfera: aperta per una buona lettura o chiusa e soffusa, complice dei sogni. • **Corpo in metallo verniciato nelle finiture bianco, giallo, rosso, blu. Diffusore in vetro duplex, lampadina LED 5W 2700K E14 inclusa.**

Buonanotte ist eine lustige Leuchte, die durch Drehen der viertelförmigen Metallkappe, die sich frei über den kugelförmigen Diffusor bewegt und den Lichtstrahl regelt, verstellbar ist. Mit einer einfachen Geste verändert sich die Atmosphäre: Geöffnet für eine gute Lektüre oder geschlossen und abgedämpft, wird sie zur Komplizin der Träume. • **Körper aus lackiertem Metall in den Ausführungen Weiß, Gelb, Rot und Blau Diffusor aus Duplex-Glas, Lampe LED 5W 2700K E14 inbegriffen.**

Fante

1978

Jonathan De Pas

Donato D'Urbino

Paolo Lomazzi

Fante's light is easy to direct, thanks to the reflector on the head of the lamp that, like a wide-brimmed hat, defines the silhouette of an elegant, female figure. The freedom of inclination allows simultaneous control of both the illumination on the tabletop and the indirect diffused light for upward radiance. The conical base is soft and pleasing to the touch, perfectly completing the proportioned design.

- **Conical silicone base in black or brick-red colours. Adjustable disc in white painted aluminium. 11W 2700K E27 LED globe bulb included.**

La luce di Fante si orienta facilmente, grazie al riflettore sulla testa della lampadina che, simile a un cappello a tesa larga, definisce la silhouette di un'elegante figura femminile. La libertà di inclinazione permette di controllare contemporaneamente sia la luce sul piano d'appoggio che la leggera diffusa indiretta verso l'alto. La base conica, morbida e piacevole al tatto, completa il suo design perfettamente proporzionato.

- **Base conica in silicone nei colori nero o rosso mattone. Disco orientabile in alluminio verniciato bianco. Lampada globo LED 11W 2700K E27 inclusa.**

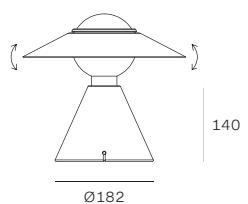

Das Licht von Fante ist dank dem Reflektor am Kopf des Leuchtmittels, das ähnlich einem Hut mit breiter Krempe die Silhouette einer eleganten weiblichen Figur definiert, leicht auszurichten. Die Kippfreiheit erlaubt, gleichzeitig sowohl das Licht nach unten als auch das sanfte, indirekte Streulicht nach oben zu steuern. Der konische Sockel, weich und angenehm anzufassen, vervollständigt ihr perfekt proportioniertes Design.

- **Konischer Sockel aus Silikon in den Farben Schwarz oder Ziegelrot. Schwenkbare Scheibe aus weiß lackiertem Aluminium. Kugellampe LED 11W 2700K E27 eingeschlossen.**

Gravita

1969

Antonio Macchi Cassia

A company history extending over fifty years of hard work. The dimmable light within a large glass sphere softly illuminates the environment. A smaller metal sphere orbits around the surface thanks to the magnetic solution of great ingenuity, projecting a concentrated and dimmable light. When it was conceived in 1969, this light was at the forefront of the canons and processes of the time and remains so even by modern standards. Gravita, an iconic lamp that illustrates the meaning of design.

- **Blown glass diffuser, directable sphere in aluminium, base in extruded aluminium.**

Finishes: clear/chrome/anodised black.

Oltre cinquant'anni di fatiche e storia di imprese. La luce regolabile in intensità nella grande sfera di vetro illumina morbidiamente l'ambiente. La sfera metallica, più piccola, orbita sulla superficie grazie ad una soluzione magnetica di grande ingegno, proiettando una luce concentrata e dimmerabile. Concept del 1969 all'avanguardia rispetto ai canoni e alle lavorazioni di allora e finanche per quelli contemporanei. Gravita, una lampada iconica per spiegare il significato del design. • **Diffusore in vetro soffiato, sfera orientabile in alluminio, base in estruso di alluminio. Finiture: trasparente/cromo/anodizzato nero.**

Über fünfzig Jahre Mühen und Geschichten von Unternehmen. Das Leuchtmittel in der großen Glaskugel, dessen Intensität reguliert werden kann, verbreitet im Raum ein weiches Licht. Die kleine Metallkugel kreist mittels einer einfallsreichen magnetischen Lösung auf der Oberfläche und projiziert ein konzentriertes, dimmbares Licht. Die Leuchte Concept aus dem Jahr 1969 ist die Avantgarde hinsichtlich dem Kanon und den Bearbeitungen ihrer Zeit, aber auch der heutigen Zeit. Gravita, eine ikonische Leuchte, um die Bedeutung des Designs zu erklären. • **Diffusor aus geblasenem Glas, ausrichtbare Aluminiumkugel, Sockel aus extrudiertem Aluminium.**

La Mariée

2018

Mirco Crosatto

La Mariée is an ethereal sphere in blown glass with elegant copper, gold or smokey grey tones. The slightly oval shape and the hidden light source emit a soft ambient illumination that creates a play of reflections. Alone or as part of an arrangement, La Mariée adds a refined touch to the environment.

- **Blown glass casting diffuser, aluminium inner ring, metal base.**
- Finishes: transparent/white/white, smoky grey/black/galvanic black nickel, copper/rose gold/galvanic white, gold/galvanic gold/white.**

La Mariée è un'eterea sfera in vetro soffiato dalle preziose tonalità ramate, dorate o fumé. La forma leggermente ovalizzata e la sorgente invisibile diffondono una luce d'ambiente morbida, che gioca di riflessi. Da sola o in composizione, La Mariée aggiunge un tocco raffinato all'ambiente.

- **Diffusore in vetro in pasta soffiato, anello interno in alluminio, base in metallo.**
- Finiture: trasparente/bianco/bianco, fumé/galvanica nichel nero/nero, rame/galvanica oro rosa/bianco, oro/galvanica oro/bianco.**

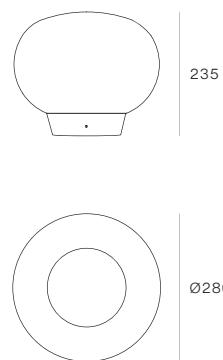

La Mariée ist eine ätherische Kugel aus geblasenem Glas in kostbaren Kupfer-, Gold- und Rauchfarben. Die leicht ovale Form und die unsichtbare Lichtquelle verbreiten ein weiches Raumlicht, das mit Reflexen spielt. Allein oder in Komposition gibt La Mariée dem Ambiente einen raffinierten Touch.

- **Diffusor aus in Form geblasenes Glas, Innenring aus Aluminium, Sockel aus Metall.**
- Ausführungen: transparent/weiß/weiß, fumé/galvanisch vernickelt in Schwarz/schwarz, Kupfer/galvanisch vergoldet in Goldrosa/weiß, gold/galvanisch vergoldet in Gold/weiß.**

Lama

2011

Mirco Crosatto

Built into the thin Lama profile is technology comprising the topLED light source and the soft-touch switch at the base. The unique form and light emission smooths out the contrasts and shadows on the table top, rendering Lama ideal in any modern space. • **Aluminium body, polycarbonate diffuser. Finishes: white, black.**

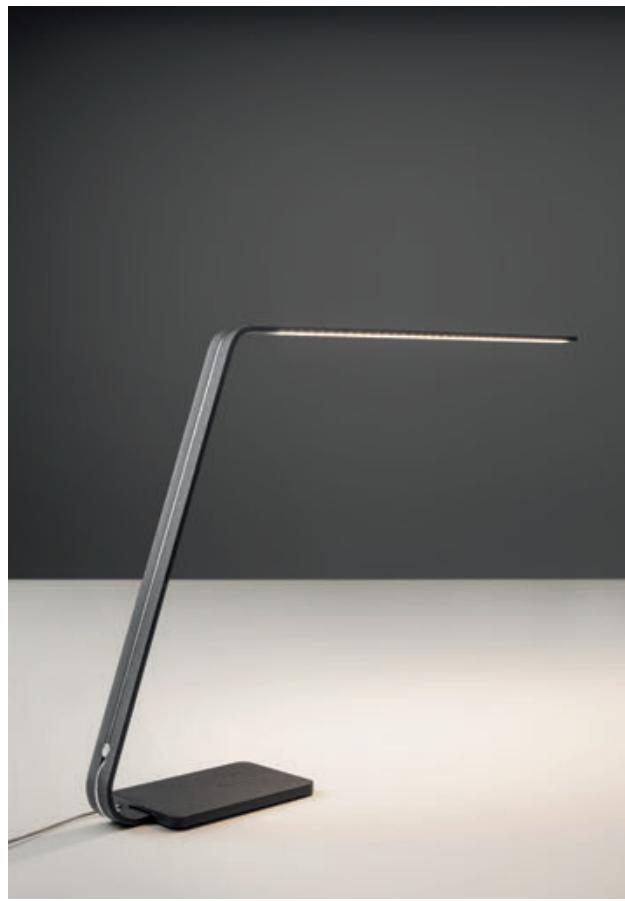

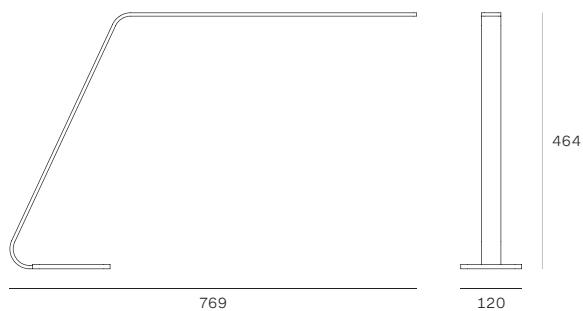

Nel sottile profilo di Lama è integrata una tecnologia composta dalla sorgente topLED e dall'interruttore soft-touch alla base, per una pratica accensione a sfioro. La particolare forma e l'emissione luminosa smussano i contrasti e le ombre nel piano d'appoggio, rendendo Lama ideale in ogni spazio contemporaneo.
• **Corpo in alluminio, diffusore in policarbonato. Finiture: bianco, nero.**

In dem feinen Profil von Lama ist eine Technologie integriert, die aus der Lichtquelle topLED und dem Soft-Touch-Schalter am Sockel für ein leichtes Einschalten durch Antippen besteht. Die besondere Form und die Lichtemission machen die Kontraste und die Schatten auf der Tragfläche weicher und Lama ideal für jeden zeitgenössischen Raum. • **Lampenkörper aus Aluminium, Diffusor aus Polycarbonat. Ausführungen: weiß, schwarz.**

Lampiatta

1971

Jonathan De Pas

Donato D'Urbino

Paolo Lomazzi

Lampiatta can be easily repositioned without the use of joints or mechanisms. Indeed, the lampshade is designed to be inserted as desired in one of the four slots of the base, allowing the light to be inclined and directed as desired. • **Parabolic diffuser in aluminium, body in plastic material, removable base in steel.** Finishes: white/white, black/white, red/white.

Lampiatta è facilmente riposizionabile senza l'uso di snodi o meccanismi: il paralume è pensato per potersi inserire a piacere in una delle quattro fessure del basamento, consentendo l'inclinazione e l'orientamento della luce. • **Parabola in alluminio, corpo in materiale plastico, base removibile in acciaio.** Finiture: bianco/bianco, nero/bianco, rosso/bianco.

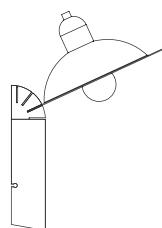

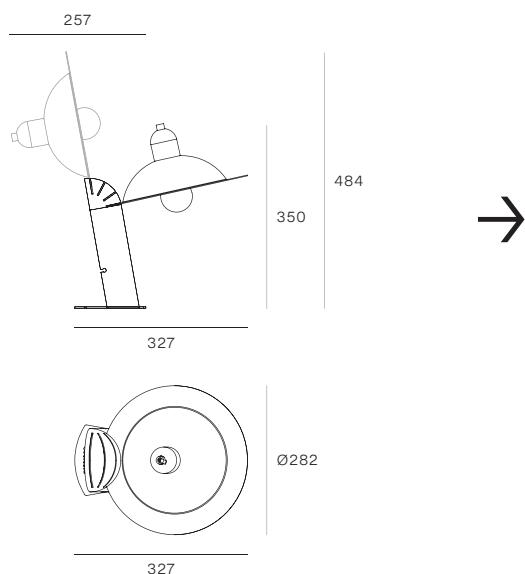

Lampiatta kann leicht ohne Gelenke oder mechanische Elemente zurückgestellt werden: Der Schirm ist so entworfen worden, dass er sich nach Belieben in eine der vier Öffnungen am Sockel einführen lässt, um das Licht kippen und ausrichten zu können. • **Parabolschirm aus Aluminium, Lampenkörper aus Kunststoff, abnehmbarer Sockel aus Aluminium.** Ausführungen: weiß/weiß, schwarz/weiß, rot/weiß.

Megafono

1958

Stilnovo

Megafono is an iconic 1950s lamp with both direct and indirect light. The double-cone directable lampshade, with an ivory or glossy black finish, is combined with the precious brass stem with galvanic gilding, to illuminate with a refined touch. • **Brass body, metal shade and base. Finishes: brass with galvanic gilding, black or ivory lampshades.**

Megafono è una lampada icona degli anni Cinquanta a luce diretta e indiretta. Il paralume orientabile a doppio cono, in finitura avorio o nero lucido, si abbina al prezioso stelo in ottone con doratura galvanica, per illuminare con un tocco raffinato. • **Corpo in ottone, paralume e base in metallo. Finiture: ottone con doratura galvanica, paralumi nero oppure avorio.**

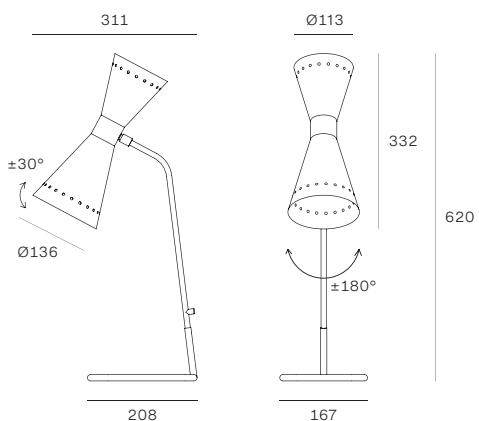

Megafono ist eine ikonische Leuchte der Fünfziger Jahre mit direktem und indirektem Licht. Der ausrichtbare Lampenschirm mit doppeltem Konus, in Elfenbein oder glänzendem Schwarz passt zum kostbar ausgeführten Messingstab mit galvanischer Goldbeschichtung, um den Raum mit einem eleganten Touch zu beleuchten.

• **Leuchtkörper aus Messing, Lampenschirm und Sockel aus Metall.**
Ausführungen: Messing mit galvanischer Goldbeschichtung, Lampenschirme schwarz oder in Elfenbein.

Minibox

1981

Gae Aulenti

Piero Castiglioni

The table-top Minibox is comprised of a metal body, a comfortable handle and an irreverent luminous eye, which recalls the aesthetics of a miners' lamp. The magnetic attachment of the head allows the light to be directed, rendering it suitable for any location, even the most unexpected.

- **Metal body and directable head with magnetic coupling. Finishes: white, black, coffee, green, red.**

Minibox da tavolo è composta da una scocca in metallo, una comoda presa e un irriverente occhio luminoso, che rimanda all'estetica delle lampade dei minatori. L'aggancio magnetico della testa permette di orientare la luce, rendendola adatta a ogni luogo, anche il più inaspettato.

- **Corpo e testa orientabile in metallo con aggancio magnetico. Finiture: bianco, nero, caffè, verde, rosso.**

Die Tischleuchte Minibox setzt sich zusammen aus einem robusten Metallgehäuse, einem bequemen Griff und einem frech leuchtenden Auge, das an das Aussehen der Leuchten der Grubenarbeiter erinnert. Der Magnet am Kopf erlaubt das Licht so auszurichten, dass es für jeden Ort, selbst dem unerwartetsten geeignet ist.

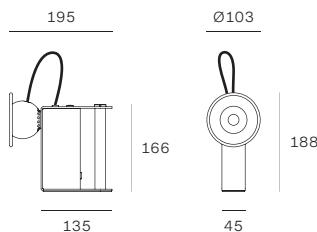

- **Lampenkörper und Kopf ausrichtbar aus Metall mit Magnet. Ausführungen: weiß, schwarz, caffè, grün, rot.**

Minitopo

1970

MoMA New York, Permanent Collection

Joe Colombo

Minitopo is a fascinating object of automotive inspiration: the slits on the body are reminiscent of the vents on a 1960s sports car, whilst the lampshade's form corresponds to the shell of the classic E27 bulb it contains, like the bodywork covering an engine. The resulting form resembles a little mouse (or, 'topo' in Italian), hence the ironic name. The light is can be directed via the black handle, which represents the mouse's tail, positioned on the light reflector. • **Metal shell, handle in heat-insulating material, metal shaft. Finishes: white/chrome, black/chrome, red/chrome, green/chrome, gold/black, full chrome, full iconic red.**

Minitopo è un affascinante oggetto d'ispirazione automobilistica: le fessure sulla calotta metallica ricordano le prese d'aria delle auto sportive anni Sessanta, mentre la forma del paralume corrisponde all'inviluppo della classica lampadina E27 accolta al suo interno, come una carrozzeria sul motore sottostante. La forma che ne deriva ricorda un topolino, da qui l'ironico nome. La luce è liberamente direzionabile dall'impugnatura nera, la codina, posta sul riflettore. • **Calotta in metallo, impugnatura in materiale termoisolante, asta in metallo. Finiture: bianco/cromo, nero/cromo, rosso/cromo, verde/cromo, oro/nero, full chrome, full iconic red.**

Minitopo ist ein faszinierender Gegenstand inspiriert am Automobil: Die Schlitze an der Kappe erinnern an die Luftschlitzte der Sportautos der sechziger Jahre, während die Form des Lampenschirms an die Hüllkurve der klassischen Glühbirne E27 in seinem Innern entspricht, wie eine Karosserie auf dem darunterliegenden Motor. Die Form, die daraus entsteht, erinnert an eine kleine Maus, daher der ironische Name. Das Licht kann am schwarzen Griff, dem Schwanz, der auf dem Reflektor sitzt, frei ausgerichtet werden. • **Kappe aus Metall, Griff aus wärmeisolierendem Material, Stange aus Metall. Ausführungen: weiß/verchromt, schwarz/verchromt, rot/verchromt, grün/verchromt, gold/schwarz, full chrome, full iconic red.**

Topo

1970

Joe Colombo

Topo is a fascinating object of automotive inspiration: the slits on the metal shell are reminiscent of the vents on a 1960s sports car, whilst the lampshade's form corresponds to the casing of the classic E27 bulb it contains, like the bodywork encasing an engine. The jointed metal arms allow the lamp to be extend or retracted at will.

• **Metal shell, handle in heat-insulating material, metal arms. Metal base with external polyethylene finish or with an aluminium screw clamp. Finishes: white, black, green, chrome, iconic red.**

Topo è un affascinante oggetto d'ispirazione automobilistica: le fessure sulla calotta metallica ricordano le prese d'aria delle auto sportive anni Sessanta, mentre la forma del paralume corrisponde all'inviluppo della classica lampadina E27 accolta al suo interno, come una carrozzeria sul motore sottostante. I bracci snodabili in metallo permettono di estendere o ritrarre la lampada a piacimento. • **Calotta in metallo, impugnatura in materiale termoisolante, bracci in metallo. Base in metallo con rifinitura esterna in polietilene, oppure morsetto a vite in alluminio. Finiture: bianco, nero, verde, cromo, iconic red.**

Topo ist ein faszinierender Gegenstand, der sich an das Automobil inspiriert: Die Schlitze an der Kappe erinnern an die Luftschlitzte der Sportautos der 60er Jahre, während die Form des Lampenschirms der Hüllkurve der klassischen Glühbirne E27 entspricht, die in ihr aufgenommen wird, wie eine Karosserie auf dem darunterliegenden Motor. Die Gelenkkarne aus Metall erlauben die Leuchte ganz nach Belieben auszuziehen oder einzuziehen. • **Kappe aus Metall, Griff aus wärmeisolierendem Material, Arme aus Metall. Sockel aus Metall mit Außenbeschichtung aus Polyethylen oder mit Schraubklemme aus Aluminium. Ausführungen: weiß, schwarz, grün, chrom, iconic red.**

Valigia

1977

Ettore Sottsass Jr

Valigia is satirical and informal. The small handle and the two load-bearing arches in red piping are connected to the metal vault containing the light source. The Valigia is a small work of architecture without precise confines, clearly conceived to be taken anywhere. • **Supporting structure and lampshade in metal. Finish: red/black.**

Valigia è ironica e informale: la piccola maniglia e i due archi portanti in tubo rosso sono connessi alla volta in metallo, che contiene la luce. Valigia è una piccola architettura senza confini precisi, dichiaratamente pensata per essere portata ovunque. • **Struttura portante e paralume in metallo. Finitura: rosso/nero.**

Valigia ist ironisch und informell: Der kleine Griff und die beiden tragenden Bögen aus rotem Rohr sind am Gewölbe aus Metall, in dem das Licht steckt, verbunden. Valigia ist eine kleine Architektur ohne präzise Grenzen, erklärtermaßen entworfen, um überall hin getragen zu werden. • **Tragkonstruktion und Lampenschirm aus Metall. Ausführung: rot/ schwarz.**

Diphy

2016

Mirco Crosatto

The Diphy floor lamp is a luminous and transparent petal that combines natural aesthetics with a technological soul. Suspended on a large, curved stem, light is transmitted to the edges as the micro-incisions on the surface generate soft ambient lighting. OptiLight™ technology allows Diphy to disappear from view when switched off, only to magically reappear when switched on. • **Thermocurved PMMA diffuser, central body in aluminium, metal rod and base. Finish: white/transparent.**

Diphy da terra è un petalo luminoso e trasparente, che combina l'estetica organica a un'anima tecnologica. La sorgente, sospesa su un ampio stelo curvato, trasmette la luce ai bordi e alle microincisioni della superficie, generando una morbida illuminazione d'ambiente. La tecnologia OptiLight™ permette a Diphy di scomparire alla vista se spenta, per riapparire magicamente quando accesa. • **Diffusore in PMMA termocurvato, corpo centrale e montatura in alluminio. Finitura: bianco/trasparente.**

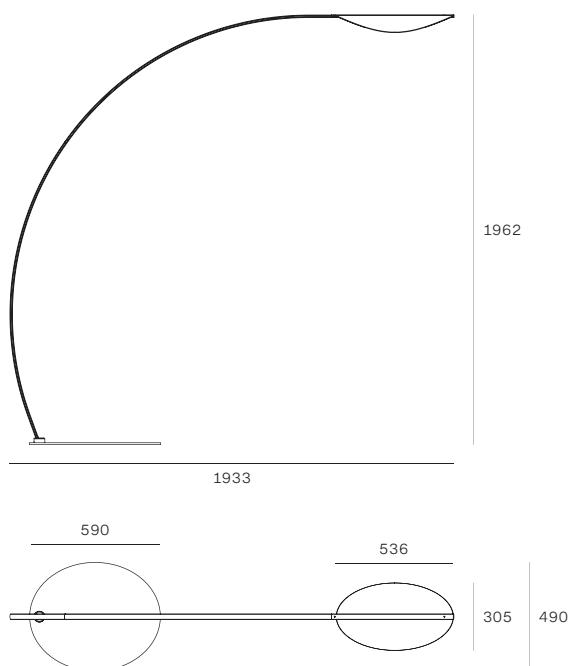

Die Bodenlampe Diphy ist ein transparentes, leuchtendes Blütenblatt, welche die organische Ästhetik mit einer technologischen Seele kombiniert. Die Lichtquelle, aufgehängt auf einem breiten, gebogenen Stiel, sendet das Licht zu den Rändern und den Mikrogravuren der Oberfläche und schafft so ein weiches Raumlicht. Die OptiLight™-Technik erlaubt Diphy aus dem Sichtfeld zu verschwinden, sobald sie abgeschaltet ist, um magischerweise wieder zu erscheinen, sobald sie eingeschaltet wird. • **Diffusor aus heißgebogenem PMMA, Mittelkörper und Gestell aus Aluminium. Ausführung: weiß/transparent.**

Galassia

1959

Stilnovo

The Galassia floor lamp, with the captivating movement of six white triplex glass light sources, enriches the space with a sophisticated retro touch, preserving its 1950s charm. The base in white Carrara marble embellishes what is a unique lamp.

- **Brass body, triplex glass diffusers, Carrara marble base. Finishes: brass with galvanic gilding/glossy white glass/white marble.**

Galassia piantana, con l'avvolgente movimento delle sei sorgenti in vetro triplex bianco, arricchisce lo spazio con un sofisticato tocco retrò, conservando inalterato il fascino anni Cinquanta. La base in marmo bianco di Carrara impreziosisce una lampada unica. • **Corpo in ottone, diffusori in vetro triplex, base in marmo di Carrara.**
Finiture: ottone con doratura galvanica/vetro bianco lucido/marmo bianco.

Der Deckenfluter Galassia bereichert durch die faszinierende Bewegung der sechs Leuchtquellen aus weißem Triplex-Glas den Raum mit seinem anspruchsvollen Retro-Touch, der den Charme der fünfziger Jahre unverändert bewahrt. Der Sockel aus weißem Carrara-Marmor macht die einzigartige Leuchte besonders kostbar.

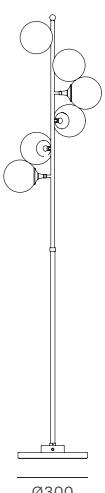

- **Leuchtkörper aus Messing, Diffusoren aus Triplex-Glas, Sockel aus Carrara-Marmor. Ausführungen: Messing mit galvanischer Goldbeschichtung/weiß glänzendes Glas/weißer Marmor**

Kimia

2018

Edin Dedovic

The Kimia illuminating disc can be rotated and moved freely along the top of the shaft, varying the direction of the light as desired, perhaps towards a wall or ceiling for ambient illumination or directed for relaxing reading. • **Aluminium disc, polycarbonate diffuser. Metal rod and base.**

Finishes: white, black.

Il disco illuminante di Kimia può essere ruotato e spostato liberamente lungo la sommità dell'asta, variando a piacimento la direzione della luce: verso la parete o il soffitto per una luce d'ambiente o diretta e funzionale per una lettura rilassante.

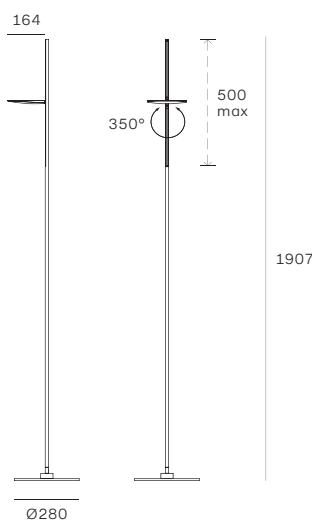

- **Disco in alluminio, diffusore in policarbonato. Asta e base in metallo. Finiture: bianco, nero.**

Die Leuchtscheibe Kimia kann frei entlang der Stangenspitze gedreht und verschoben werden, um die Richtung des Lichts nach Belieben zu verändern: Zur Wand oder Decke hin für Raumlicht oder direktes, funktionales und entspannendes Leselicht. • **Scheibe aus Aluminium, Diffusor aus Polycarbonat. Stange und Sockel aus Metall. Ausführungen: weiß, schwarz.**

Oxygen

2016

Pio e Tito Toso

The Oxygen floor lamp comes in two versions with different mounts – a vertical stem and an arched support, to offer the right solution in a range of settings. The shade houses an OptiLight™ diffuser that emits precise and uniform light, both direct and indirect. Oxygen is a vast and versatile collection thanks to the various dimensions and finishes available.

- **Polyurethane lampshade, PMMA diffuser, metal rod and base. Finishes: white/white, black/white, yellow/white, light blue/white.**

Oxygen da terra ha due varianti di sostegno: uno stelo verticale e uno ad arco, per diverse soluzioni d'ambiente. Il paralume ospita un diffusore in OptiLight™ che sviluppa una luce puntuale e omogenea, diretta e indiretta. Oxygen è un'ampia e versatile collezione grazie alle diverse dimensioni e finiture a disposizione.

- **Paralume in poliuretano, diffusore in PMMA, asta e base in metallo. Finiture: bianco/bianco, nero/bianco, giallo/bianco, azzurro/bianco.**

Die Stehlampe Oxygen hat zwei Trägervarianten: Einen vertikalen Stiel und einen Bogen für verschiedene Raumlösungen. Im Lampenschirm entwickelt ein Diffusor Optilight™ ein direktes und indirektes punktgenaues, gleichmäßiges Licht. Oxygen ist eine breite und vielseitige Kollektion dank der vielen erhältlichen verschiedenen Größen und Ausführungen.

- **Lampenschirm aus Polyurethan, Diffusor aus Polycarbonat, Stange und Sockel aus Metall. Ausführungen: weiß/weiß, schwarz/weiß, gelb/weiß, hellblau/weiß.**

Tablet

2014

Mirco Crosatto

Tablet is a family of minimalist lamps with adjustable light. A thin, rectangular frame houses the mobile light sources which, thanks to the almost complete rotation on its own axis, allows the orientation of direct, indirect or combined beams of light.

- **Aluminium body, opaline polycarbonate diffuser, metal base. Finishes: white, black.**

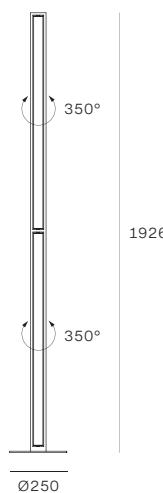

Tablet è una famiglia di lampade minimali a luce direzionale. In un sottile telaio rettangolare sono incorniciate le sorgenti mobili che, grazie alla rotazione quasi completa sul proprio asse, permettono l'orientamento di fasci luminosi diretti, indiretti o combinati. • **Corpo in alluminio, diffusore in policarbonato opalino, base in metallo. Finiture: bianco, nero.**

Tablet ist eine Familie minimalistischer Leuchten mit ausrichtbarem Licht. In einem dünnen rechteckigen Rahmen stecken die beweglichen Lichtquellen, die dank der praktisch kompletten Drehung um die eigene Achse erlauben, die direkten, indirekten oder kombinierten Lichtbündel auszurichten. • **Lampenkörper aus Aluminium, Diffusor aus milchigem Polycarbonat, Sockel aus Metall. Ausführungen: weiß, schwarz.**

101

Topo

1970

Joe Colombo

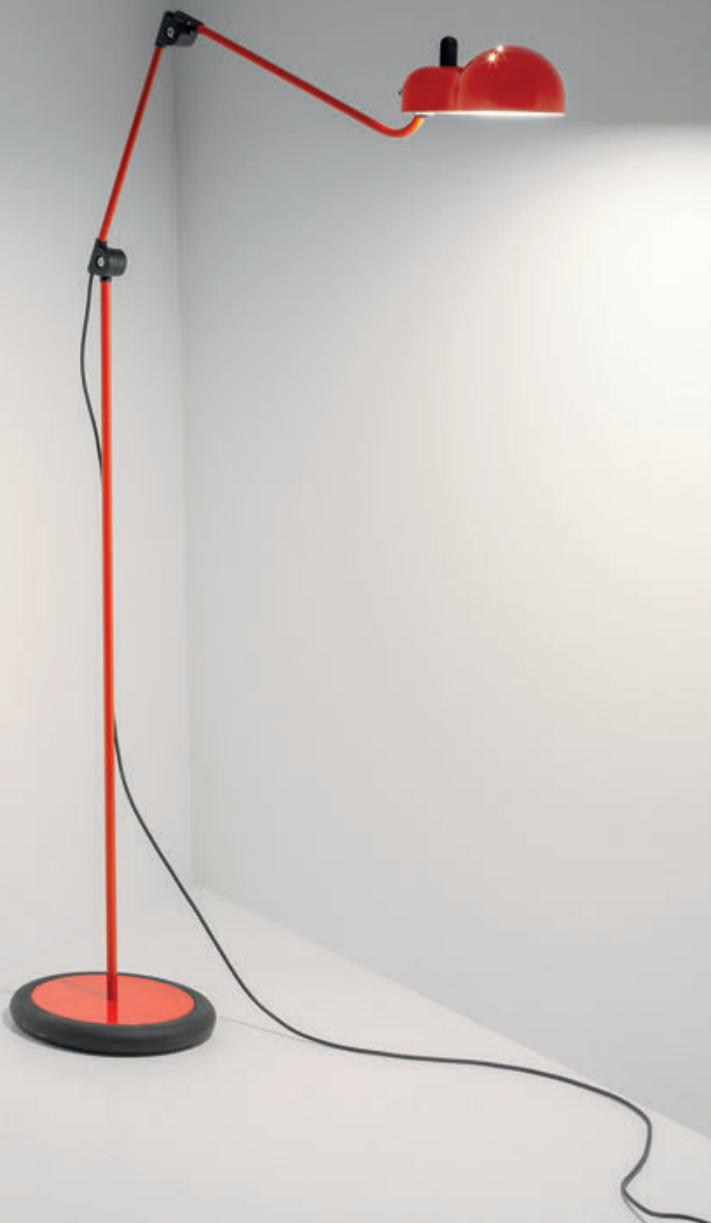

Topo is a fascinating object of automotive inspiration: the slits on the metal shell are reminiscent of the vents on a 1960s sports car, whilst the lampshade's form corresponds to the casing of the classic E27 bulb it contains, like the bodywork encasing an engine. The jointed metal arms allow the lamp to be extend or retracted at will.

- **Metal shell, handle in heat-insulating material, metal arms and rod, metal base with exterior polyethylene finish. Shell and arm finishes: white, black, green and chrome with black rod and base or in full iconic red.**

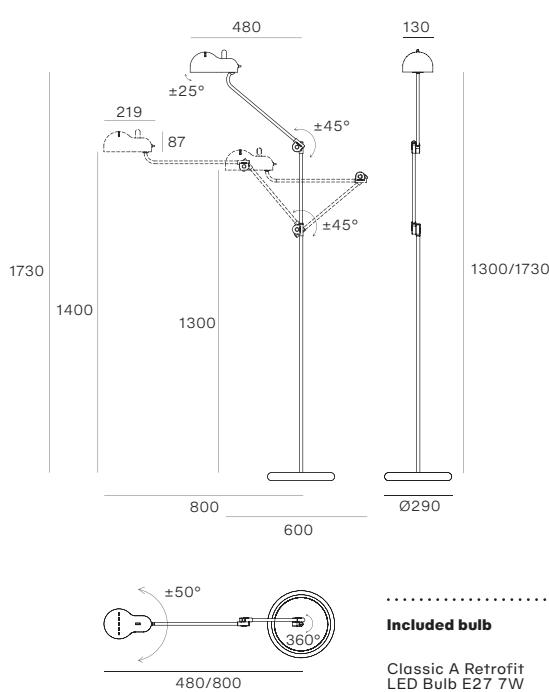

Topo è un affascinante oggetto d'ispirazione automobilistica: le fessure sulla calotta metallica ricordano le prese d'aria delle auto sportive anni Sessanta, mentre la forma del paralume corrisponde all'inviluppo della classica lampadina E27 accolta al suo interno, come una carrozzeria sul motore sottostante. I bracci snodabili in metallo permettono di estendere o ritrarre la lampada a piacimento.

- **Calotta in metallo, impugnatura in materiale termoisolante, bracci e asta in metallo, base in metallo con rifinitura esterna in polietilene. Finiture calotta e bracci: bianco, nero, verde e cromo con asta e base nera, oppure full iconic red.**

Topo ist ein faszinierender Gegenstand, der sich an das Automobil inspiriert: Die Schlitze an der Kappe erinnern an die Luftschlitzte der Sportautos der 60er Jahre, während die Form des Lampenschirms der Hüllkurve der klassischen Glühbirne E27 entspricht, die in ihr aufgenommen wird, wie eine Karosserie auf dem darunterliegenden Motor. Die Gelenkkarme aus Metall erlauben die Leuchte ganz nach Belieben auszuziehen oder einzuziehen. • **Kappe aus Metall, Griff aus wärmeisolierendem Material, Arme und Stange aus Metall, Sockel aus Metall mit Polyethylenbeschichtung außen. Ausführungen der Kappe und der Arme: weiß, schwarz, grün und chrom mit Stange und schwarzer Sockel oder Sockel in Full Iconic Red.**

Triedro

1970

Joe Colombo

The Triedro floor lamp is reminiscent of lighting from a photo shoot. Thanks to the contoured and bent metal lampshade, comprised of three parts, the light from the silver-domed LED bulb reflects without glare. A vast flexibility of movement is guaranteed by the supporting double joint, which allows the light source to rotate, incline and slide along the steel stem secured to the solid, circular base. • **Lampshade, body, bulb holder and rod in metal. Metal base with polyethylene finish. Finish: white/black/chrome.**

Triedro da terra ricorda le lampade di scena dei set fotografici. Grazie al paralume in metallo sagomato e piegato in tre parti, riflette la luce della lampadina LED a cupola argentata, senza abbagliare. Un'ampia flessibilità di movimento è garantita dal doppio snodo portante, che permette alla sorgente di ruotare, inclinarsi e scorrere lungo lo stelo in acciaio vincolato alla base circolare. • **Paralume, corpo, portalampada e asta in metallo. Base in metallo con rifinitura in polietilene. Finitura: bianco/nero/cromo.**

Die Bodenleuchte Triedro erinnert an die Szenenleuchten von Fotoshootings. Dank dem Lampenschirm aus geformtem und in drei Teile gebogenem Metall reflektiert das Licht des LED- Leuchtmittels mit versilberter Kuppel, ohne zu blenden. Eine große Bewegungsflexibilität wird vom tragenden Doppelgelenk garantiert, das erlaubt, die Leuchtquelle zu drehen, kippen und entlang des Stiels aus Stahl laufen zu lassen. Der Stiel aus Stahl ist am soliden runden Sockel gebunden. • **Lampenschirm, Lampenkörper und Fassung und Stange aus Metall. Sockel aus Metall mit Polyethylenbeschichtung. Ausführung: weiß/schwarz/ chrom.**

Xilema

2014

Edin Dedovic

The floor-mounted Xilema combines minimalist geometry with sophisticated technology. A thin, vertical body contains a WallWasher topLED light source that diffuses uniform illumination onto the wall. The well-proportioned cement base contributes to the aesthetics with a solid personality.

- **Aluminium body, PMMA diffuser, concrete base. Finishes: white/concrete, polished aluminium/concrete.**

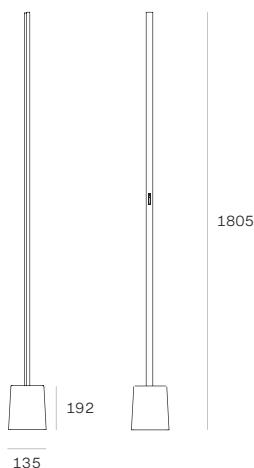

Xilema da terra coniuga una geometria minimale ad una sofisticata tecnologia. Il sottile corpo verticale contiene una sorgente topLED Wall Washer che diffonde sulla parete una luce omogenea. La base in cemento, ben proporzionata, contribuisce a un'estetica dalla personalità rigorosa.

- **Corpo in alluminio, diffusore in PMMA, base in cemento. Finiture: bianco/cemento, alluminio lucido/cemento.**

Die Bodenleuchte Xilema verbindet eine minimalistische Geometrie mit einer ausgeklügelten Technologie. Der dünnwandige vertikale Körper umschließt eine Lichtquelle topLED Wall Washer, die auf der Wand ein homogenes Licht verteilt. Der Sockel aus Zement, wohl proportioniert, trägt zur strengen Ästhetik der Leuchte bei.

- **Lampenkörper aus Aluminium, Diffusor aus PMMA, Sockel aus Zement. Ausführungen: weiß/Zement, glänzendes Aluminium/Zement.**

Campana

1969

Stilnovo

Dating back to 1969, the Campana recalls the Pop style that is still trendy today. The new LED light source integrated into the large flared lampshade illuminates the underlying environment whilst creating a characteristic luminous corolla that slides across the external surface of the lamp. • **Aluminium body and lampshade, metal wire casing. Finishes: grey-white, red, grey-white/brushed aluminium.**

Campana, dal 1969, richiama lo stile pop ancora oggi attuale. La nuova sorgente a LED integrata nell'ampio paralume svasato illumina l'ambiente sottostante e, al contempo, crea una caratteristica corolla luminosa che scivola sulla superficie esterna della lampada. • **Calotta e paralume in alluminio, coprifilo in metallo. Finiture: grey white, rosso, grey white/alluminio spazzolato.**

Die Leuchte Campana, von 1969, erinnert an den noch heute aktuellen Pop-Stil. Die neue LED-Quelle, die in den ausladenden, nach unten breiter werdenden Lampenschirm integriert ist, beleuchtet den Raum unter sich und formt gleichzeitig eine charakteristische Leuchtkrone, die über die Außenoberfläche der Leuchte gleitet. • **Kappe und Lampenschirm aus Aluminium, Kabelabdeckung aus Metall. Ausführungen: grey white, rot, grey white/gebürstetes Aluminium.**

Demi

2019

Mirco Crosatto

When switched off, Demí is a large, transparent dome. When switched on, the lower edge and the thousands of laser micro-incisions on the surface emit soft and uniform light thanks to the exclusive Opti Light™ technology. The light is generated by an invisible LED bulb inside the ring of the large upper opening that, like in Rome's ancient Pantheon, is the source of light. • **Heat-blown PMMA diffuser, aluminium ring, metal wire casing. Finish: white/transparent.**

Demí da spenta è un'ampia cupola trasparente. Grazie all'esclusiva tecnologia Opti-Light™, quando viene accesa, il bordo inferiore e le migliaia di microincisioni al laser della superficie diffondono un'illuminazione morbida e omogenea. Questa è generata da un'invisibile sorgente LED posta nell'anello del grande foro superiore che, come nell'antico Pantheon, è origine di luce. • **Diffusore in PMMA termosoffiato, anello in alluminio, coprifilo in metallo.**
Finitura: bianco/trasparente.

Demí ist ausgeschaltet eine große, transparente Kuppel. Dank der exklusiven Opti-Light™-Technologie streuen der untere Rand und die tausenden Lasermikrogravuren, wenn die Leuchte eingeschaltet wird, ein weiches, gleichmäßiges Licht. Das Licht wird durch eine unsichtbare LED-Leuchquelle im Ring des großen oberen Lochs, aus dem, wie im alten Pantheon, das Licht kommt, erzeugt. • **Diffusor aus heißblasenem PMMA, Ring aus Aluminium, Kabellabdeckung aus Metall. Ausführung: Weiß/transparent.**

Derby

2019

Mirco Crosatto

Derby is an adjustable parabola in a sound-absorbent material covered in fabric for both direct and indirect light. Offering diffused emission or output with darklight screening for UGR control, Derby is ideal in work environments. Designed to reduce glare and improve visual and acoustic comfort, its dual function is perfectly executed.

- **Body in sound-absorbing polyester staple fibre covered in fabric, metal wire casing. Finishes: orange/white, grey/grey, brown/brown.**

Derby è una parabola orientabile in materiale fonoassorbente rivestito in tessuto, che integra un'illuminazione sia indiretta che diretta. Quest'ultima può avere un'emissione diffusa o con schermatura darklight per il controllo dell'UGR, ideale negli ambienti lavorativi. Derby è pensata per ridurre l'abbagliamento e migliorare il comfort visivo e acustico: una doppia funzione espressa al meglio. • **Corpo in fibra di poliestere in fiocco fonoassorbente rivestita in tessuto, coprifilo in metallo. Finiture: arancio/bianco, grigio/grigio, marrone/marrone.**

Derby ist eine schwenkbare parabelförmige Leuchte aus schallschluckendem Material mit Stoffbezug, die sowohl eine indirekte als auch eine direkte Beleuchtung integriert. Die direkte Beleuchtung kann eine diffuse Emission oder eine Emission mit dem Abschirmblech Darklight für die Steuerung des UGR, ideal für Arbeitsumgebungen, haben. Derby wurde entworfen, um das Blendlicht zu reduzieren und den Sehkomfort und das akustische Erleben zu verbessern: Eine Doppelfunktion, ausgedrückt, wie es nicht besser geht. • **Lampenkörper aus 100% schallschluckender Polyester-spinnfaser, mit Stoff bezogen, Kabelabdeckung aus Metall. Ausführung: orange/weiß, grau/grau, braun/braun.**

Diphy

2016

Mirco Crosatto

Diphy is a collection of luminous and transparent petals, combining natural aesthetics with a technological soul. The central source transmits light to the curving edges whilst the micro-incisions of the surfaces create soft and uniform ambient lighting. OptiLight™ technology allows Diphy to disappear from view when switched off, only to magically reappear when switched on.

- **Thermocurved PMMA diffuser, central body in aluminium, metal wire casing. Finish: white/transparent.**

Diphy è una collezione di petali luminosi e trasparenti, che combina l'estetica organica a un'anima tecnologica. La sorgente centrale trasmette la luce ai bordi sinuosi e alle microincisioni delle superfici, creando un'illuminazione d'ambiente morbida e omogenea. La tecnologia OptiLight™ permette a Diphy di scomparire alla vista se spenta, per riapparire magicamente quando accesa.

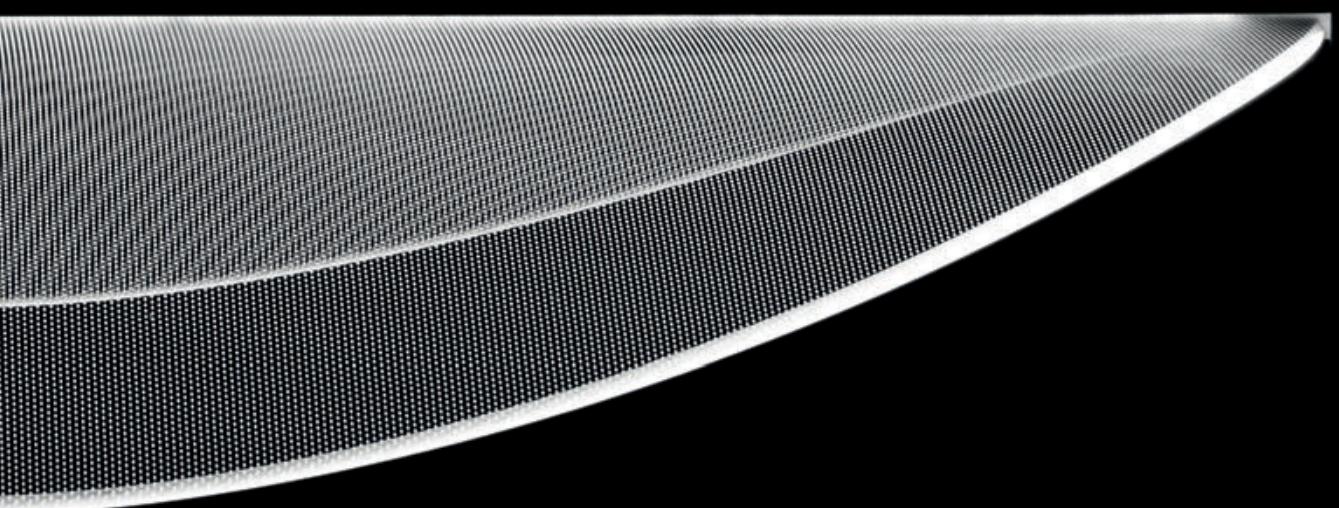

- **Diffusore in PMMA termocurvato, corpo centrale in alluminio, coprifilo in metallo. Finitura: bianco/trasparente.**

Diphy ist eine Kollektion an transparenten, leuchtenden Blütenblättern, welche die organische Ästhetik mit einer technologischen Seele kombiniert. Die zentrale Lichtquelle leitet das Licht zu den kurvenförmigen Rändern und den Mikrogravuren der Oberfläche und schafft so ein weiches und homogenes Raumlicht. Die OptiLight™-Technik erlaubt Diphy aus dem Sichtfeld zu verschwinden, sobald sie abgeschaltet ist, um magischerweiser wieder zu erscheinen, sobald sie eingeschaltet wird.

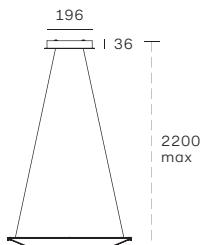

- **Diffusor aus heißgebogenem PMMA, Mittelkörper aus Aluminium, Kabelabdeckung aus Metall. Ausführung: weiß/transparent.**

Galassia

1959

Stilnovo

The 1950s charm of the Galassia suspension light, available with six or twelve bulbs, remains unchanged thanks to the combination of the brass with galvanic gilding on the structure and the white triplex blown glass spheres. A priceless collection that enriches the space with a sophisticated retro touch. • **Interchangeable brass body and rods, triplex glass diffusers, metal wire casing. Finish: brass with galvanic gilding/glossy white glass.**

Galassia sospensione, disponibile a sei o a dodici luci, mantiene inalterato il fascino anni Cinquanta grazie all'abbinamento fra l'ottone con doratura galvanica della struttura e le sfere in vetro soffiato triplex bianco. Una preziosa collezione che arricchisce lo spazio con un sofisticato tocco retrò. • **Corpo e aste intercambiabili in ottone, diffusori in vetro triplex coprifilo in metallo. Finitura: ottone con doratura galvanica/vetro bianco lucido.**

Die Hängeleuchte Galassia ist mit sechs oder zwölf Lichtern erhältlich, sie hat dank der Kombination der Struktur aus Messing mit galvanischer Goldbeschichtung mit den weißen Kugeln aus geblasenem Triplex-Glas den Charme der fünfziger Jahre unverändert bewahrt. Eine kostbare Kollektion, die den Raum mit einem anspruchsvollen Retro-Touch bereichert. • **Lampenkörper und auswechselbare Stangen aus Messing, Diffusoren aus Triplex-Glas, Kabelabdeckung aus Metall. Ausführung: Messing mit galvanischer Goldbeschichtung/weiß glänzendes Glas.**

Hinomaru

2018

Mirco Crosatto

Hinomaru's thin and shiny metallic perimeter in rose gold or black nickel houses the topLED light source. Illumination is transmitted to the large central disc thanks to the OptiLight™ technology, emitting a soft and uniform light into the environment. • **Metal body and wire casing, PMMA diffuser. Finishes: galvanic pink gold, black galvanic nickel.**

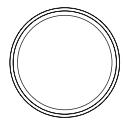

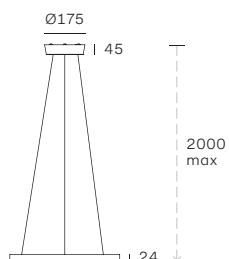

Hinomaru ha un sottile e brillante perimetro metallico in oro rosa o nichel nero, che accoglie la sorgente topLED. La luce è trasmessa all'ampio disco centrale grazie alla tecnologia OptiLight™, che diffondono nell'ambiente un'illuminazione morbida ed uniforme. • **Corpo e coprifilo in metallo, diffusore in PMMA. Finiture: galvanica oro rosa, galvanica nichel nero.**

Hinomaru hat eine feine und glänzende Metallumfassung in Goldrosa oder Nickelschwarz, welche die Lichtquelle topLED aufnimmt. Das Licht wird dank der Technologie OptiLight™ an die breite zentrale Scheibe weitergegeben, welche die Umgebung weich und gleichmäßig beleuchtet. • **Lampenkörper und Kabelabdeckung aus Metall, Diffusor aus PMMA. Ausführungen: galvanisch vergoldet in Goldrosa, galvanisch vernickelt in Schwarz.**

Honey

2019

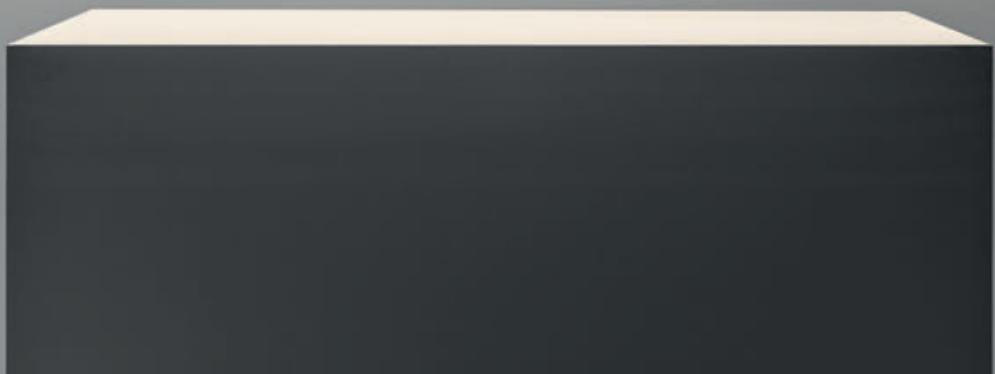

Pio e Tito Toso

The Honey collection plays on the repetition of a modular element which multiplies to create linear or circular configurations. The warm light is diffused both directly and indirectly and, curtained by wavy opaline diffusers, creates fascinating nuances.

- **Modules in polycarbonate, metal wire casing. Finish: glossy white.**

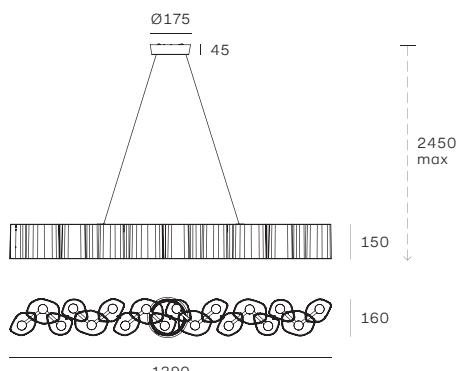

La collezione Honey gioca sulla ripetizione di un elemento modulare, che si moltiplica creando configurazioni lineari o circolari. La luce calda è diffusa sia in modo diretto che indiretto e, schermata da opalini ondulati, dà vita ad affascinanti sfumature. • **Moduli in policarbonato, coprifilo in metallo. Finitura: bianco lucido.**

Die Kollektion Honey setzt auf die Wiederholung eines Moduls, das sich gradlinige und kreisförmige Konfigurationen schaffend vervielfacht. Das warme Licht verbreitet sich sowohl direkt als auch indirekt und, abgeschirmt von wellenförmigen Milchglasscheiben, weckt sie ein Spiel an verzaubernden Nuancierungen. • **Zylinder aus Aluminium, Kabelabdeckung aus Metall. Ausführung: glänzend weiß.**

La Mariée

2018

Mirco Crosatto

La Mariée is an ethereal sphere in blown glass with elegant copper, gold or smokey grey tones. The slightly oval shape and the hidden light source emit a soft ambient illumination that creates a play of reflections. Alone or as part of an arrangement, La Mariée adds a refined touch to the environment. • **Blown glass casting diffuser, aluminium inner ring, metal wire casing.**
Finishes: transparent/white, smoky grey/galvanic black nickel, copper/galvanic rose gold, gold/galvanic gold.

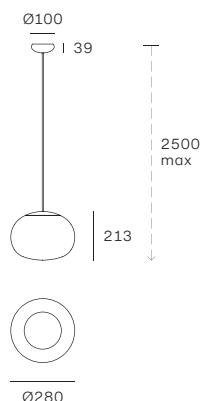

La Mariée è un'eterea sfera in vetro soffiato dalle preziose tonalità ramate, dorate o fumé. La forma leggermente ovalizzata e la sorgente invisibile diffondono una luce d'ambiente morbida, che gioca di riflessi. Da sola o in composizione, La Mariée aggiunge un tocco raffinato all'ambiente. • **Diffusore in vetro in pasta soffiato, anello interno in alluminio, coprifilo in metallo.**
Finiture: trasparente/bianco, fumé/galvanica nichel nero, rame/galvanica oro rosa, oro/galvanica oro.

La Mariée ist eine ätherische Kugel aus geblasenem Glas in kostbaren Kupfer-, Gold- und Rauchfarben. Die leicht ovale Form und die unsichtbare Lichtquelle verbreiten ein weiches Raumlicht, das mit Reflexen spielt. Allein oder in Komposition gibt La Mariée dem Ambiente einen raffinierten Touch. • **Diffusor aus in Form geblasenes Glas, Innenring aus Aluminium, Kabelabdeckung aus Metall.** Ausführungen: transparent/weiß, fumé/galvanisch vernickelt in Schwarz, Kupfer/galvanisch vergoldet in Goldrosa, gold/galvanisch vergoldet in Gold.

Megafono

1958

Stilnovo

Megafono is an iconic 1950s lamp with both direct and indirect light. In the suspension version with three, six or eight arms, a prized brass structure bearing galvanic gilding combines with the directable double-cone lampshades in ivory or glossy black, illuminating the environment with elegance. • **Body, suspension rod and wire casing in brass, metal lampshades.** Finishes: brass with galvanic gilding, black or ivory lampshades.

Megafono è una lampada icona degli anni Cinquanta a luce diretta e indiretta. In versione sospensione a tre, sei o otto bracci, abbina alla preziosa struttura in ottone con doratura galvanica i paralumi orientabili a doppio cono in avorio o nero lucido, illuminando l'ambiente con eleganza. • **Corpo, asta di sospensione e coprifilo in ottone, paralumi in metallo. Finiture: ottone con doratura galvanica, paralumi nero oppure avorio.**

Megafono ist eine ikonische Leuchte der Fünfziger Jahre mit direktem und indirektem Licht. In ihrer Version als Hängeleuchte mit drei, sechs oder acht Armen kombiniert sie die kostbar ausgeführte Struktur aus Messing mit galvanischer Goldbeschichtung mit den ausrichtbaren Lampenschirmen mit doppeltem Konus in Elfenbein oder glänzendem Schwarz und beleuchtet so den Raum mit Eleganz. • **Lampenkörper, Stange zum Aufhängen und Kabelabdeckung aus Messing, Lampenschirme aus Metall. Ausführungen: Messing mit galvanischer Goldbeschichtung, Lampenschirme schwarz oder in Elfenbein.**

Mongolfier

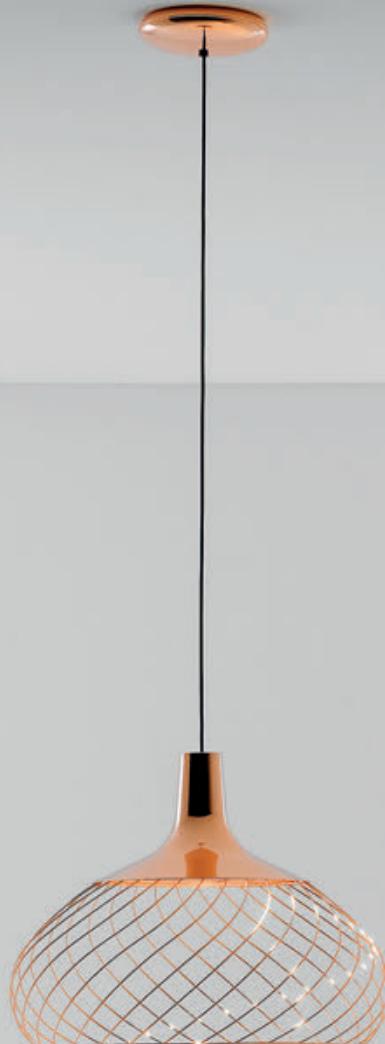

2016

Stilnovo

The weightless volumes of the Mongolfier embrace and intercept the light, creating elegant plays of reflection and shadow. The Warm Tune™ technology allows you to modify the atmosphere – as the light is dimmed, the radiance becomes increasingly warmer and more subdued until reaching a candle-like effect. • **Body and wire casing in metal. Finishes: black, galvanic pink gold, black galvanic nickel.**

I volumi leggeri di Mongolfier avvolgono e intercettano la luce, creando preziosi giochi di riflessi ed ombre. La tecnologia Warm Tune™ permette di cambiare l'atmosfera: al diminuire dell'intensità, la luce diviene via via sempre più calda e soffusa, fino a raggiungere l'effetto di una candela. • **Corpo e coprifilo in metallo. Finiture: nero, galvanica oro rosa, galvanica nichel nero.**

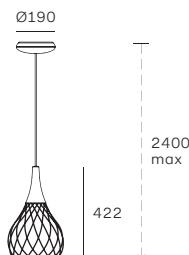

Die leichten Volumen von Mongolfier hüllen das aufgefangene Licht ein und kreieren kostbare Schatten- und Lichtreflexspiele. Die Technologie Warm Tune™ erlaubt, die Atmosphäre zu verändern: Beim Mindern der Intensität wird das Licht nach und nach immer wärmer und gedämpfter, bis sie wie eine Kerze wirkt. • **Lampenkörper und Kabelabdeckung aus Metall. Ausführungen: schwarz, galvanisch vergoldet in Goldrosa, galvanisch vernickelt in Schwarz.**

Mr Magoo

2010

Mirco Crosatto

Mr Magoo is a luminous cloud that adorns and delights with supple and natural lines. The light source is entirely integrated and emits soft and diffused light. Multiple elements allow the creation of an extensive array of scenographies. • **Polyethylene diffuser, metal wire casing. Finish: white.**

Mr Magoo è una nuvola luminosa che arreda e sorprende per le linee sinuose e naturali. La sorgente è completamente integrata, ed emette una luce morbida e diffusa. Più elementi permettono la creazione di scenografie di ampio respiro. • **Diffusore in polietilene, coprifilo in metallo. Finitura: bianco.**

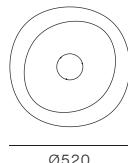

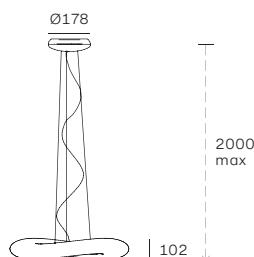

Mr Magoo ist eine leuchtende Wolke, die zu einem Einrichtungsgegenstand wird und durch ihre kurvigen, natürlichen Linien überrascht. Die Quelle ist vollständig integriert und strahlt ein weiches Streulicht aus. Mehrere Elemente erlauben die Kreation von facettenreichen Szenen. • **Diffusor aus Polyethylen, Kabelabdeckung aus Metall. Ausführung: weiß.**

Opti-line

2016

Stilnovo

Opti-Line is comprised of thin, micro-engraved sheeting that uses OptiLight™ technology. Completely transparent when switched off, when switched on, it generates diffused and uniform light emitted from the central body in polished or white painted aluminium. • **PMMA diffuser, aluminium ring, metal wire casing.** Finishes: white/transparent, transparent/shiny aluminium.

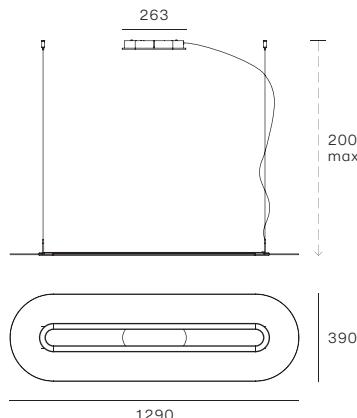

Opti-Line è composta da una sottile lastra microincisa che adotta la tecnologia Opti-Light™: se da spenta è completamente trasparente, da accesa genera una luce diffusa ed uniforme, proveniente dal corpo centrale in alluminio lucido o verniciato bianco. • **Diffusore in PMMA, anello in alluminio, coprifilo in metallo. Finiture: bianco/trasparente, alluminio lucido/trasparente.**

Opti-Line ist eine dünne mikrogravierte Platte mit der Technologie OptiLight™: Wenn sie abgeschaltet ist, wird sie vollständig transparent, eingeschaltet erzeugt sie ein diffuses, gleichmäßiges Licht, das aus dem Mittelkörper aus glänzendem oder weiß lackiertem Aluminium strahlt. • **Diffusor aus PMMA, Ring aus Aluminium, Kabelabdeckung aus Metall. Ausführungen: weiß/transparent, glänzendes Aluminium/transparent.**

Oxygen

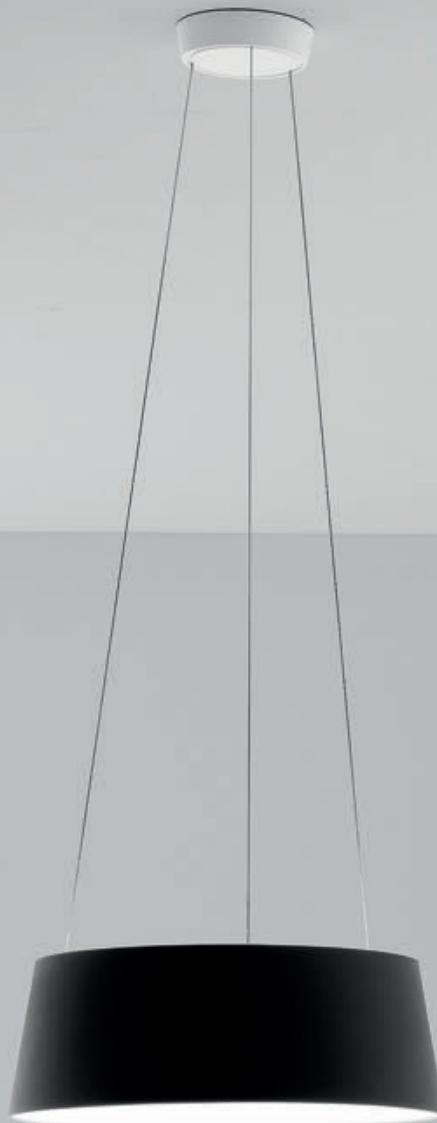

2016

Pio e Tito Toso

The familiar design of Oxygen stems from the standard lamp shade, proportioned in all of its forms. It houses the OptiLight™ diffuser, which produces soft and uniform illumination, directed downwards and upwards. The Oxygen collection is both vast and versatile thanks to the various dimensions and finishes. • **Polyurethane lampshade, PMMA diffuser, metal wire casing. Finishes: white/white, black/white, yellow/white, light blue/white.**

Il design familiare di Oxygen è determinato dal paralume archetipo, proporzionato in tutte le sue declinazioni. Al suo interno ospita il diffusore in OptiLight™, che sviluppa una luce morbida e uniforme, sia verso il basso che verso l'alto. Oxygen è una collezione estesa e versatile grazie alle diverse dimensioni e finiture. • **Paralume in poliuretano, diffusore in PMMA, coprifilo in metallo. Finiture: bianco/bianco, nero/bianco, giallo/bianco, azzurro/bianco.**

Das vertraute Design von Oxygen wird von dem archetypischen Lampenschirm, der in allen seinen Versionen proportioniert ist, bestimmt. Der Diffusor OptiLight™ im Innern der Leuchte entwickelt ein weiches und gleichmäßiges Licht sowohl nach unten als auch nach oben. Oxygen ist eine umfassende und vielseitige Kollektion dank der verschiedenen Größen und Ausführungen. • **Lampenschirm aus Polyurethan, Diffusor aus Polycarbonat, Kabelabdeckung aus Metall. Ausführungen: weiß/weiß, schwarz/weiß, gelb/weiß, hellblau/weiß.**

Quad

2014

Pio e Tito Toso

Quad is a collection of pendant lights comprised of an assembly of multiple square modules that emit indirect or dual-emission light that expands softly through the space. The articulated design creates truly evocative atmospheres. • **Aluminium modules, polycarbonate diffusers, metal wire casing.**
Finishes: white, black.

Quad è una collezione di sospensioni composte dalla connessione di più moduli quadrati, che emettono una luce indiretta o a doppia emissione, che si diffondono morbideamente nello spazio. Con il suo design articolato crea suggestive atmosfere.

• **Moduli in alluminio, diffusori in policarbonato, coprifilo in metallo. Finiture: bianco, nero.**

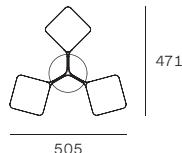

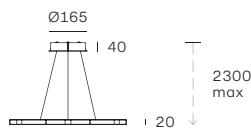

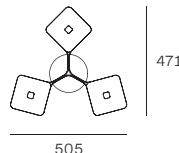

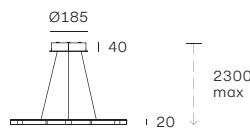

Quad ist eine Kollektion an Hängelampen, die sich aus der Verbindung mehrerer quadratischer Module zusammensetzen, die ein indirektes Licht oder ein Licht mit doppelter Emission, das sich weich in den Raum verteilt, ausstrahlen. Mit seinem artikulierten Design schafft es suggestive Atmosphären. • **Module aus Aluminium, Difusor aus Polycarbonat, Kabelabdeckung aus Metall. Ausführungen: weiß, schwarz.**

Reflexio

2018

Mirco Crosatto

Reflexio is a large disc of reflected light in which the exterior light source is entirely invisible. The light beam is uniformly distributed by the dome-shaped reflector, providing soft, indirect, comfortable illumination.

- **Body and wire casing in metal. Finishes:** white/white, black/white, chocolate/white.

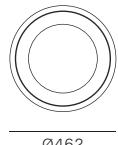

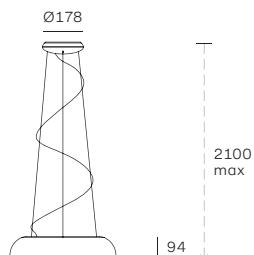

Reflexio è un grande disco di luce riflessa, nel quale la sorgente perimetrale è completamente invisibile. Il fascio luminoso è distribuito uniformemente dal riflettore a cupola, per un'illuminazione indiretta, morbida e confortevole. • **Corpo e coprifilo in metallo. Finiture: bianco/bianco, nero/bianco, chocolate/bianco.**

Reflexio ist eine große Scheibe reflektierten Lichts, bei der die Umfangsquelle vollständig unsichtbar ist. Der Lichtstrahl wird vom Kuppelreflektor gleichmäßig verteilt und sorgt für indirekte, weiche und komfortable Beleuchtung. • **Lampenkörper und Kabelabdeckung aus Metall. Ausführungen: weiß/weiß, schwarz/weiß, chocolate/weiß.**

Saliscendi

1957

Achille e Pier Giacomo Castiglioni

Designed in 1957, the next year two unique copies were created for the Milan Chamber of Commerce. Today, the Saliscendi finally emerges as an adjustable dual-emission metal lamp re-engineered with dimmable LED light sources. The luminous body and reflective disc slide silently along the cables, ensuring perfectly modulated lighting. Travelling in the opposite direction, the two elements diffuse more direct or indirect light depending on the distance by which they are separated. • **Body, parabolic diffuser and wire casing in metal, diffusers in PMMA. Finishes: grey-white/white, ruby red/white, grass green/white.**

Saliscendi è una lampada regolabile a doppia emissione. Il corpo luminoso e il disco riflettente scorrono silenziosamente lungo i cavi, assicurando un'illuminazione perfettamente modulabile. I due elementi, spostandosi in senso inverso, diffondono più luce diretta o indiretta a seconda della distanza che li separa. Progettata nel 1957 e realizzata l'anno successivo in due esemplari unici per la Camera di Commercio di Milano, oggi Saliscendi è reingegnerizzata con sorgenti LED dimmerabili. • **Corpo, parabola e coprifilo in metallo, diffusori in PMMA. Finiture: grey white/bianco, rosso rubino/bianco, verde prato/bianco.**

Saliscendi ist eine verstellbare Metalllampe mit doppelter Emission. Der Lampenkörper und die reflektierende Scheibe laufen leise und garantieren eine perfekte, modulierbare Beleuchtung. Die beiden Elemente, die sich in entgegengesetzter Richtung bewegen, verbreiten je nach dem Abstand zwischen sich mehr direktes oder mehr indirektes Licht. Saliscendi wurde 1957 entworfen und im darauffolgenden Jahr für die Mailänder Handelskammer in zwei einzigartigen Exemplaren ausgeführt wurde. Heute wird es mit dimmbaren LED-Quellen neu gestaltet.
• **Lampenkörper, Parabolschirm und Kabelabdeckung aus Metall, Diffusor aus PMMA. Ausführungen: grey white/weiß, rubinrot/weiß, grasgrün/weiß.**

Sputnik

1957

Stilnovo

Like fireworks, the Sputnik expands in all directions in an explosion of light. The sixteen-arm structure in precious brass with galvanic gilding is elegantly combined with the ends available in black, ivory or in the lively multicoloured variant.

- **Body, suspension rod and wire casing in brass, metal ends. Finishes: brass with galvanic gilding/black, brass with galvanic gilding/ivory, brass with galvanic gilding/multicolour.**

Sputnik si espande in tutte le direzioni in un'esplosione di luce, come un fuoco d'artificio. La struttura a sedici bracci in prezioso ottone con doratura galvanica si combina con eleganza ai finali disponibili in nero, avorio o nella vivace variante multicolore.

- **Corpo, asta di sospensione e coprifilo in ottone, finali in metallo. Finiture: ottone con doratura galvanica/nero, ottone con doratura galvanica/avorio, ottone con doratura galvanica/multicolor.**

Sputnik breitet sich in einer Lichtexplosion wie ein Feuerwerk in alle Richtungen aus. Die Struktur mit sechzehn Armen aus kostbarem Messing mit galvanischer Goldbeschichtung verbindet sich elegant mit den erhältlichen Endelementen in Schwarz, Elfenbein oder in den lebhaften, bunten Varianten. • **Lampenkörper, Stange zum Aufhängen und Kabelabdeckung aus Messing, aus Metall. Ausführungen: Messing mit galvanischer Goldbeschichtung/schwarz, Messing mit galvanischer Goldbeschichtung/elfenbein, Messing mit galvanischer Goldbeschichtung/bunt.**

Tablet

2014

Mirco Crosatto

Tablet is a family of minimalist lamps with adjustable light. A thin, rectangular frame houses the mobile light sources which, thanks to the almost complete rotation on its own axis, allows the orientation of direct, indirect or combined beams of light. • **Aluminium body, opaline polycarbonate diffuser, metal wire casing.**

Finishes: white, black.

Tablet è una famiglia di lampade minimali a luce direzionale. In un sottile telaio rettangolare sono incorniciate le sorgenti mobili che, grazie alla rotazione quasi completa sul proprio asse, permettono l'orientamento di fasci luminosi diretti, indiretti o combinati. • **Corpo in alluminio, diffusore in policarbonato opalino, coprifilo in metallo.**

Finiture: bianco, nero.

Tablet ist eine Familie minimalistischer Leuchten mit ausrichtbarem Licht. In einem dünnen rechteckigen Rahmen stecken die beweglichen Lichtquellen, die dank der praktisch kompletten Drehung um die eigene Achse erlauben, die direkten, indirekten oder kombinierten Lichtbündel auszurichten. • **Lampenkörper aus Aluminium, Diffusor aus milchigem Polycarbonat, Kabelabdeckung aus Metall.** Ausführungen: weiß, schwarz.

Trepìù

1972

Gae Aulenti

Livio Castiglioni

Trepìù is an evocative lamp, with an upper shell bearing a marked vintage flavour in two colours and a dome in chromed or glossy white aluminium. Its perfectly-white interior diffuses uniform lighting. • **Rear shell in plastic material, aluminium dome, metal wire casing. Finishes: white/black shell, chrome/black shell, white/yellow shell, chrome/yellow shell.**

Trepìù è una lampada suggestiva, con calotta superiore dal marcato sapore vintage in due varianti colore e cupola in alluminio cromato o bianco lucido. Il suo interno, perfettamente bianco, diffonde un'illuminazione uniforme. • **Calotta posteriore in materiale plastico, cupola in alluminio, coprifilo in metallo. Finiture: bianco/calotta nera, chrome/calotta nera, bianco/calotta gialla, chrome/calotta gialla.**

Trepìù ist eine zauberhafte Leuchte, mit einer oberen Vintage-Kappe in zwei Farbvarianten und Kuppel aus verchromtem Aluminium oder in glänzendem Weiß. Die Innenwände sind perfekt weiß und verbreiten ein einheitliches Licht. • **Hintere Kappe aus Kunststoff, Kuppel aus Aluminium, Kabelabdeckung aus Metall. Ausführungen: weiß/schwarze Kappe, chrom/schwarze Kappe. weiß/gelbe Kappe, chrom/gelbe Kappe.**

Triedro

1970

Joe Colombo

Triedro is reminiscent of lighting from a photo shoot. Housing a silver-domed LED bulb, the lampshade is comprised of three contoured and bent metal parts in order to reflect the light downward, without creating glare. • **Metal lampshade and bulb holder. Wire casing in plastic material.**
Finish: white/black.

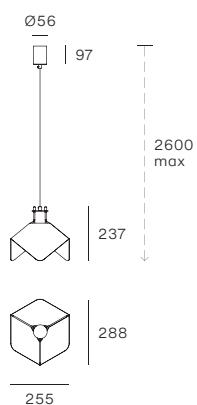

Triedro rievoca le lampade di scena dei set fotografici. Il paralume, contenente una lampadina LED a cupola argentata, è in metallo sagomato e piegato in tre parti, così da riflettere la luce verso il basso, senza abbagliare. • **Paralume e portalamppada in metallo. Coprifilo in materiale plastico. Finitura: bianco/nero.**

Triedro erinnert an die Szenenleuchten von Fotoshootings. Der Lampenschirm mit einer silbernen kuppelförmigen LED-Lampe ist aus geformtem und in drei Teilen gebogenem Metall, sodass das Licht nach unten reflektiert wird, ohne zu blenden.
• **Lampenschirm und Fassung aus Metall. Kabelabdeckung aus Kunststoff. Ausführungen: weiß/ schwarz.**

237

Xilema

2014

Edin Dedovic

In the Xilema pendant fixture, the upper joint permits perpendicular orientation to be consistently maintained, even in installations with sloped ceilings. Geometrical perfection and elevated technology unite thanks to the WallWasher optics with soft-touch on/off, for the diffusion of a delicate and subdued light on the walls. • **Aluminium body, PMMA diffuser.**
Finishes: white, polished aluminium.

In Xilema sospensione lo snodo superiore permette di mantenere sempre un orientamento perpendicolare al pavimento, anche in installazioni con soffitti inclinati. Perfezione geometrica e alta tecnologia si incontrano grazie all'ottica WallWasher, ad accensione soft-touch, che diffonde sulle pareti una luce delicata e soffusa.
• **Corpo in alluminio, diffusore in PMMA.**
Finiture: bianco, alluminio lucido.

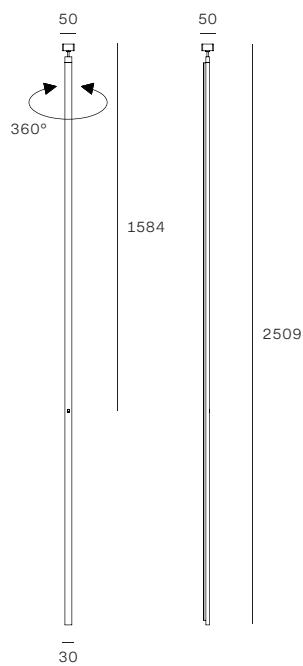

Bei der Hängeleuchte Xilema erlaubt das obere Gelenk der Leuchte immer lotrecht zum Boden zu stehen, auch bei Installationen in schrägen Decken. Geometrische Perfektion und hohe Technologie treffen aufeinander dank der Optik WallWasher, mit Softtouch-Einschaltung, die auf den Wänden ein feines, gedämpftes Licht werfen. • **Lampenkörper aus Aluminium, Diffusor aus PMMA. Ausführung: weiß, glänzendes Aluminium.**

2Nights

2016

Davide Oppizzi

2Nights is an elegantly-designed system. The powerLED technology is housed in aluminium cylinders painted black or white or in precious gold and rose gold finishes. 2Nights gives you the freedom to play, creating elegant compositions thanks to the cables that can be positioned off-centre to arrange the points of light at variable distances and heights. Symmetrical or asymmetrical, all variations are unique and spot on. • **Cylinder in aluminium. Finishes:** white, black, white/galvanic rose gold, black/galvanic gold.

2Nights è un sistema dal design raffinato. La tecnologia powerLED è alloggiata in cilindri di alluminio verniciati in bianco, nero o nelle preziose finiture oro e oro rosa. Con 2Nights è possibile giocare creando eleganti composizioni grazie ai cavi decentrati, così da poter disporre i punti luce a distanze e altezze variabili. Simmetrica o asimmetrica, ogni sua declinazione è unica e puntuale. • **Cilindro in alluminio.** Finiture: bianco, nero, bianco/galvanica oro rosa, nero/galvanica oro.

2Nights ist ein System von raffinem Design. Die powerLED-Technologie sitzt in Aluminiumzylindern, die weiß oder schwarz lackiert oder kostbar gold oder goldrosa beschichtet sein können. Mit 2Nights kann man dank den dezentrierbaren Kabeln spielerisch elegante Kompositionen schaffen, da die Lichtpunkte in unterschiedlichen Abständen und Höhen gesetzt werden können. Symmetrisch oder asymmetrisch, jede Variation ist einzigartig und punktgenau. • **Zylinder aus Aluminium.** Ausführungen: Weiß, schwarz, weiß/galvanisch überzogen in Goldrosa, schwarz/galvanisch überzogen in Gold.

Demi

2019

Mirco Crosatto

When switched off, Demí is a large, transparent dome. When switched on, the lower edge and the thousands of laser micro-incisions on the surface emit soft and uniform light thanks to the exclusive OptiLight™ technology. The light is generated by an invisible LED bulb inside the ring of the large upper opening that, like in Rome's ancient Pantheon, is the source of light.

- **Heat-blown PMMA diffuser, aluminium mounting. Finish: white/transparent.**

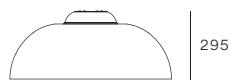

Demí da spenta è un'ampia cupola trasparente. Grazie all'esclusiva tecnologia OptiLight™, quando viene accesa, il bordo inferiore e le migliaia di microincisioni al laser della superficie diffondono un'illuminazione morbida e omogenea. Questa è generata da un'invisibile sorgente LED posta nell'anello del grande foro superiore che, come nell'antico Pantheon, è origine di luce. • **Diffusore in PMMA termosoffiato, montatura in alluminio. Finiture: bianco/trasparente.**

Demí ist ausgeschaltet eine breite transparente Kuppel. Dank der exklusiven OptiLight™-Technologie streuen der untere Rand und die tausenden Lasermikrogravuren, wenn die Leuchte eingeschaltet wird, ein weiches, gleichmäßiges Licht. Das Licht wird durch eine unsichtbare LED-Leuchquelle im Ring des großen oberen Lochs, aus dem, wie im alten Pantheon, das Licht kommt, erzeugt. • **Diffusor aus heißblasenem PMMA, aus Metall, Gestell aus Aluminium. Ausführung: weiß/transparent.**

Diphy

2016

Mirco Crosatto

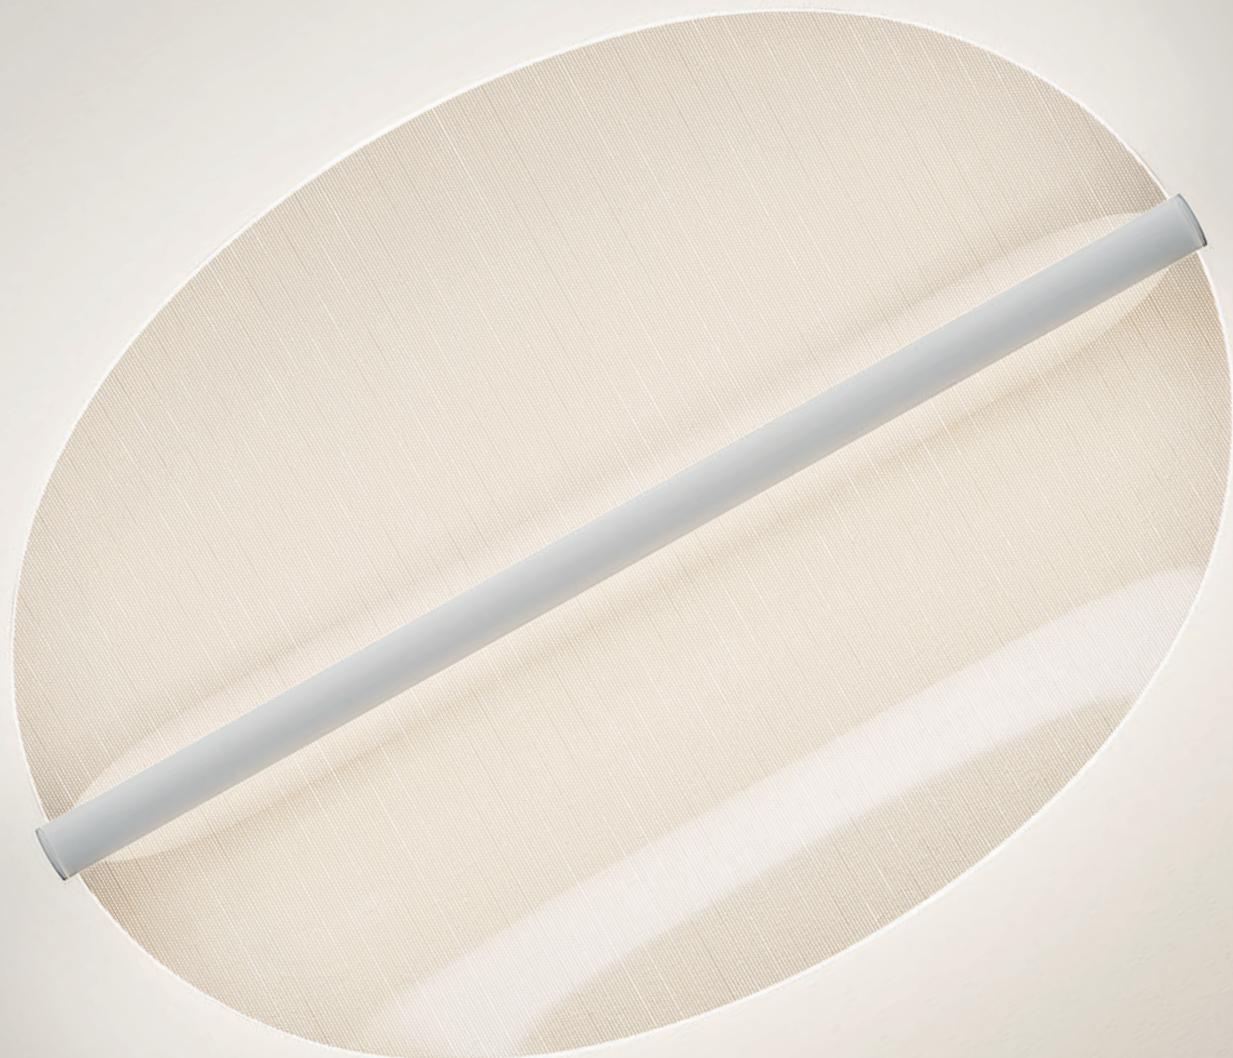

Diphy is a collection of luminous and transparent petals, combining natural aesthetics with a technological soul. The central source transmits light to the curving edges whilst the micro-incisions of the surfaces create soft and uniform ambient lighting. OptiLight™ technology allows Diphy to disappear from view when switched off, only to magically reappear when switched on.

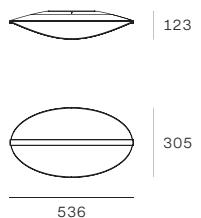

- **Thermocurved PMMA diffuser, central body and mounting in aluminium. Finish: white/transparent.**

Diphy è una collezione di petali luminosi e trasparenti, che combina l'estetica organica a un'anima tecnologica. La sorgente centrale trasmette la luce ai bordi sinuosi e alle microincisioni delle superfici, creando un'illuminazione d'ambiente morbida e omogenea. La tecnologia OptiLight™ permette a Diphy di scomparire alla vista se spenta, per riapparire magicamente quando accesa. • **Diffusore in PMMA termocurvato, corpo centrale e montatura in alluminio. Finitura: bianco/trasparente.**

Diphy ist eine Kollektion an transparenten, leuchtenden Blütenblättern, welche die organische Ästhetik mit einer technologischen Seele kombiniert. Die zentrale Lichtquelle sendet das Licht zu den kurvenförmigen Rändern und den Mikrogravuren der Oberfläche und schafft so ein weiches und homogenes Umgebungslicht. Die OptiLight™-Technik erlaubt Diphy aus dem Sichtfeld zu verschwinden, sobald sie abgeschaltet ist, um magischerweise wieder zu erscheinen, sobald sie eingeschaltet wird. • **Diffusor aus heißgebogenem PMMA, Mittelkörper und Gestell aus Aluminium. Ausführung: weiß/transparent.**

Dynamic

2010

Stilnovo

Dynamic is a collection of lamps in blown Murano glass that emit bright and uniform light, thanks to the topLED light sources housed in the concave diffusers. Three different sizes allow for multiple combinations in wall-mounting, being easy to install thanks to the practical bayonet mount.

- **Duplex blown glass diffuser, polycarbonate mounting. Finish: white/white.**

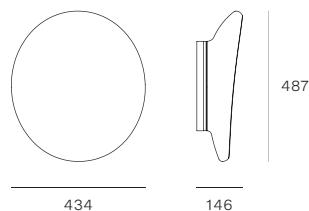

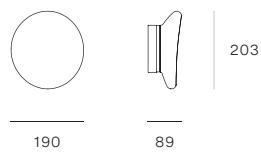

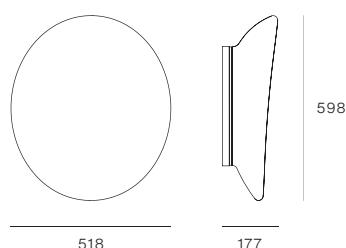

Dynamic è una collezione di lampade in vetro soffiato di Murano che, grazie alle sorgenti topLED ospitate all'interno dei diffusori dalla forma concava, sprigionano una luce intensa ed omogenea. Tre diverse dimensioni consentono molteplici combinazioni a parete, di facile installazione grazie al pratico attacco a baionetta.

- **Diffusore in vetro soffiato duplex, montatura in policarbonato. Finitura: bianco/bianco.**

Dynamic ist eine Kollektion von Leuchten aus geblasenem Murano-Glas, die dank den Lichtquellen topLED in den konkaven Diffusoren, ein intensives, homogenes Licht freilassen. Drei verschiedene Größen erlauben eine Vielzahl an Kombinationen an der Wand, leicht zu installieren dank dem praktischen Bajonett-Anschluss. • **Diffusor aus geblasenem Duplex-Glas, Gestell aus Polycarbonat. Ausführung: weiß/weiß.**

Fante

1978

Jonathan De Pas

Donato D'Urbino

Paolo Lomazzi

Fante's light is easy to direct, thanks to the adjustable reflector on the bulb. The freedom of inclination allows simultaneous control of both the downward illumination and the indirect diffused light for upward radiance. The conical base is soft and pleasing to the touch, perfectly completing the proportioned design. • **Silicone base, aluminium parabolic diffuser. Finishes: brick red/white, black/white.**

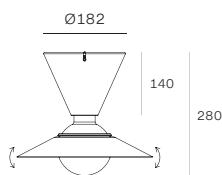

La luce di Fante si direziona facilmente, grazie al riflettore orientabile sulla lampadina stessa. La libertà di inclinazione permette di controllare contemporaneamente sia la luce verso il basso che la leggera diffusa indiretta verso l'alto. La base conica, morbida e piacevole al tatto, completa il suo design perfettamente proporzionato. • **Base in silicone, parabola in alluminio. Finiture: rosso mattone/bianco, nero/bianco.**

Das Fantelicht lässt sich dank dem schwenkbaren Reflektor am Leuchtmittel leicht ausrichten. Die Kippfreiheit erlaubt, gleichzeitig sowohl das Licht nach unten als auch das sanfte, indirekte Streulicht nach oben zu steuern. Der konische Sockel, weich und angenehm anzufassen, vervollständigt ihr perfekt proportioniertes Design. • **Sockel aus Silikon, Parabolschirm aus Aluminium. Ausführungen: ziegelrot/weiß, schwarz/weiß.**

Galassia

1959

Stilnovo

The 1950s charm of the Galassia wall light, available with one bulb or two, orientable to the left or right, remains unchanged thanks to the combination of the brass with galvanic gilding on the structure and the white triplex blown glass sphere. A priceless collection that enriches any space with a sophisticated retro touch. • **Brass body, triplex glass diffusers. Finishes: brass with galvanic gilding/glossy white glass.**

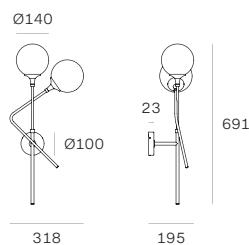

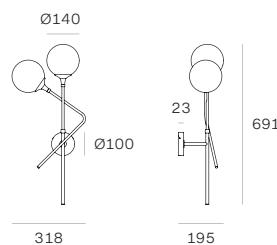

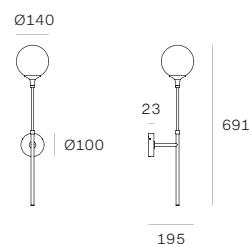

Galassia parete, disponibile a luce singola e a due luci orientate verso destra o sinistra, mantiene inalterato il fascino anni Cinquanta grazie all'abbinamento fra l'ottone con doratura galvanica della struttura e le sfere in vetro soffiato triplex bianco. Una preziosa collezione che arricchisce lo spazio con un sofisticato tocco retrò.
• **Corpo in ottone, diffusori in vetro triplex**
Finiture: ottone con doratura galvanica/vetro bianco lucido.

Die Wandleuchte Galassia ist mit einem oder zwei nach rechts oder links ausgerichteten Lichtern erhältlich, sie hat dank der Kombination der Struktur aus Messing mit galvanischer Goldbeschichtung mit den weißen Kugeln aus geblasenem Triplex-Glas den Charme der fünfziger Jahre unverändert bewahrt. Eine kostbare Kollektion, die den Raum mit einem anspruchsvollen Retro-Touch bereichert.
• **Lampenkörper aus Messing, Diffusoren aus Triplex-Glas. Ausführungen: Messing mit galvanischer Goldbeschichtung/weiß glänzendes Glas.**

Hinomaru

2018

Mirco Crosatto

Hinomaru's thin and shiny metallic perimeter in rose gold or black nickel houses the topLED light source. Illumination is transmitted to the large central disc thanks to the OptiLight™ technology, emitting a soft and uniform light into the environment.

- **Metal body, PMMA diffuser. Finishes: galvanic pink gold, black galvanic nickel.**

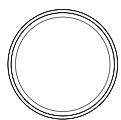

Hinomaru ha un sottile e brillante perimetro metallico in oro rosa o nichel nero, che accoglie la sorgente topLED. La luce è trasmessa all'ampio disco centrale grazie alla tecnologia OptiLight™, che diffonde nell'ambiente un'illuminazione morbida ed uniforme. • **Corpo in metallo, diffusore in PMMA. Finiture: galvanica oro rosa, galvanica nichel nero.**

Hinomaru hat eine feine und glänzende Metallumfassung in Goldrosa oder Nickel-schwarz, welche die Lichtquelle topLED aufnimmt. Das Licht wird dank der Tech-nologie OptiLight™ an die breite zentrale Scheibe weitergegeben, welche die Umge-bung weich und gleichmäßig beleuchtet. • **Lampenkörper aus Metall, Diffusor aus PMMA. Ausführungen: gal-vanisch vergoldet in Goldrosa, galvanisch vernickelt in Schwarz.**

Honey

2019

Pio e Tito Toso

The wall-mounted Honey plays on repetition, creating two linear configurations with three or nine modules. The warm light is diffused both directly and indirectly and, curtained by wavy opaline diffusers, creates fascinating nuances. • **Polycarbonate modules, metal mounting. Finish: glossy white.**

Honey a parete gioca sulla ripetizione, creando due configurazioni lineari a tre o nove moduli. La luce calda è diffusa sia in modo diretto che indiretto e, schermata da diffusori opalini ondulati, dà vita ad affascinanti sfumature. • **Moduli in policarbonato, montatura in metallo. Finitura: bianco lucido.**

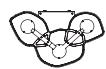

Die Wandleuchte Honey setzt auf die Wiederholung, indem sie zwei gradlinige Konfigurationen mit drei bis neun Modulen kreiert. Das warme Licht verbreitet sich sowohl direkt als auch indirekt und, abgeschirmt von wellenförmigen Milch-glasscheiben, weckt sie ein Spiel an verzaubernden Nuancierungen. • **Module aus Polycarbonat, Kabelabdeckung aus Metall. Ausführung: glänzend weiß.**

Lampiatta

1971

Jonathan De Pas

Donato D'Urbino

Paolo Lomazzi

Lampiatta can be easily repositioned without the use of joints or mechanisms. Indeed, the lampshade is designed to be inserted as desired in one of the four slots of the base, allowing the light to be inclined and directed as desired. • **Parabolic diffuser in aluminium, body in plastic material, removable base in steel. Finishes: white/white, black/white, red/white.**

Lampiatta è facilmente riposizionabile senza l'uso di snodi o meccanismi: il paralume è pensato per potersi inserire a piacere in una delle quattro fessure del basamento, consentendo l'inclinazione e l'orientamento della luce. • **Parabola in alluminio, corpo in materiale plastico, base removibile in acciaio. Finiture: bianco/bianco, nero/bianco, rosso/bianco.**

Lampiatta kann leicht ohne Gelenke oder mechanische Elemente zurückgestellt werden: Der Schirm ist so entworfen worden, dass er sich nach Belieben in eine der vier Öffnungen am Sockel einführen lässt, um das Licht kippen und ausrichten zu können. • **Parabolschirm aus Aluminium, Lampenkörper aus Kunststoff, abnehmbarer Sockel aus Aluminium. Ausführungen: weiß/weiß, schwarz/weiß, rot/weiß.**

Mr Magoo

2010

Mirco Crosatto

Mr Magoo is a luminous cloud that adorns and delights with supple and natural lines. The light source is entirely integrated and emits soft and diffused light. Multiple elements allow the creation of an extensive array of scenographies. • **Polyethylene diffuser, metal mounting. Finish: white.**

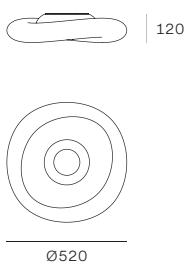

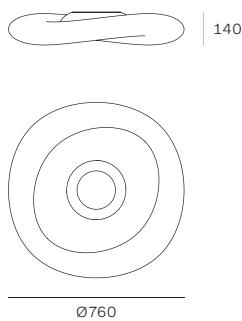

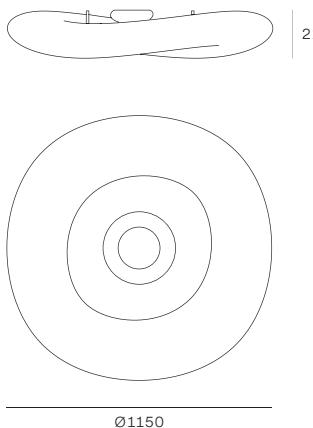

Mr Magoo è una nuvola luminosa che arreda e sorprende per le linee sinuose e naturali. La sorgente è completamente integrata, ed emette una luce morbida e diffusa. Più elementi permettono la creazione di scenografie di ampio respiro.
• **Diffusore in polietilene, montatura in metallo. Finitura: bianco.**

Mr Magoo ist eine leuchtende Wolke, die zum Einrichtungsgegenstand wird und durch ihre kurvigen, natürlichen Linien überrascht. Die Quelle ist vollständig integriert und strahlt ein weiches Streulicht aus. Mehrere Elemente erlauben die Kreation von facettenreichen Szenen. • **Diffusor aus Polycarbonat, Gestell aus Metall.**
Ausführung: weiß.

Oxygen

2016

Pio e Tito Toso

Oxygen adapts to any setting, both in the small and larger varieties. It houses an OptiLight™ diffuser, which generates delicate and uniform illumination, directed downwards and upwards. The Oxygen collection is both vast and versatile thanks to the various dimensions and finishes available. • **Polyurethane lampshade, PMMA diffuser, metal mounting. Finishes: white/white, black/white, yellow/white, light blue/white.**

Oxygen si adatta in ogni contesto, sia nella versione piccola che in quella più generosa. Al suo interno ospita il diffusore in OptiLight™, che sviluppa una luce delicata e uniforme, sia verso il basso che verso l'alto. Oxygen è un'ampia e versatile collezione grazie alle diverse dimensioni e finiture a disposizione. • **Paralume in poliuretano, diffusore in PMMA, montatura in metallo. Finiture: bianco/bianco, nero/bianco, giallo/bianco, azzurro/bianco.**

Oxygen passt sich jedem Kontext an, sowohl in der kleinen als auch in der großzügigeren Version. Der Diffusor OptiLight™ in ihrem Innern entwickelt ein weiches und gleichmäßiges Licht sowohl nach unten als auch nach oben. Oxygen ist eine breite und vielseitige Kollektion dank der vielen erhältlichen verschiedenen Größen und Ausführungen. • **Lampenschirm aus Polyurethan, Diffusor aus Polycarbonat, Gestell aus Metall. Ausführungen: weiß/weiß, schwarz/weiß, gelb/weiß, hellblau/weiß.**

Quad

2014

Pio e Tito Toso

The wall version of Quad is comprised of two bodies. With a square base, the light form is structured through the coupled corners. The resulting body, in cast aluminium, houses a light source with indirect emission. The Quad gives its best in succession or in grouped arrangements for suggestive atmospheres of diffused light. • **Aluminium module, polycarbonate diffuser, metal mounting. Finishes: white, black.**

La versione parete di Quad è composta da due volumi a base quadrata che si fondono in una struttura composta dagli spigoli raccordati. La scocca che ne deriva, in alluminio pressofuso, ospita una sorgente a emissione indiretta. Quad si esprime al meglio in successione o in composizioni aggregate, per suggestive atmosfere di luce diffusa. • **Modulo in alluminio, diffusore in policarbonato, montatura in metallo. Finiture: bianco, nero.**

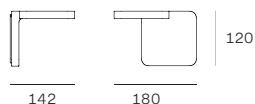

Die Wandleuchte Quad ist aus zwei Volumen mit quadratischem Sockel zusammengesetzt, die in einer Konstruktion aus miteinander verbundenen Ecken verschmelzen. In dem Körper aus Gussaluminium, der daraus entsteht, steckt eine indirekt ausstrahlende Lichtquelle. Quad drückt sich in dem Aufeinanderfolgen oder in zusammengefassten Kompositionen für suggestive Atmosphären mit diffusem Licht am besten aus. • **Modul aus Aluminium, Diffusor aus Polycarbonat, Gestell aus Metall. Ausführungen: weiß, schwarz.**

Reflexio

2018

Mirco Crosatto

Reflexio is a large disc of reflected light in which the exterior light source is entirely invisible. The light beam is uniformly distributed by the dome-shaped reflector, providing soft, indirect and comfortable illumination. • **Metal body. Finishes: white/white, black/white, chocolate/white.**

Reflexio è un grande disco di luce riflessa, nel quale la sorgente perimetrale è completamente invisibile. Il fascio luminoso è distribuito uniformemente dal riflettore a cupola, per un'illuminazione indiretta, morbida e confortevole. • **Corpo in metallo.**
Finiture: bianco/bianco, nero/bianco, chocolate/bianco.

Reflexio ist ein groÙe Scheibe reflektiertes Licht, in dem die umlaufende Lichtquelle vollständig unsichtbar ist. Das Lichtbündel wird gleichmäßig vom kuppelförmigen Reflektor verteilt, für eine indirekte, weiße und angenehme Beleuchtung. • **Lampenkörper aus Metall. Ausführungen: weiß/weiß, schwarz/weiß, chocolate/weiß.**

Saturn

2014

Stilnovo

The ceiling-mounted Saturn is a striking luminous ring. The opaline diffuser, available in two diameters, emits uniform and high-performance ambient lighting that makes it ideal for the large spaces of modern architecture. The wall-mounted version, thanks to its "sharp-turning" geometry, is the solution for single compositions or dynamic series. • **Polyethylene diffuser, metal mounting. Finish: white.**

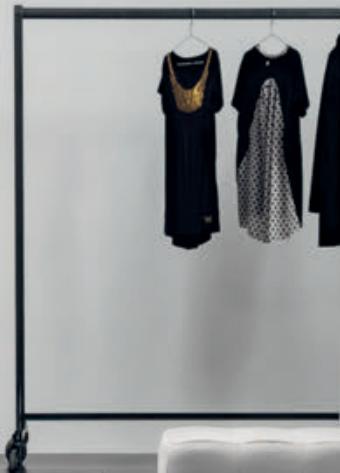

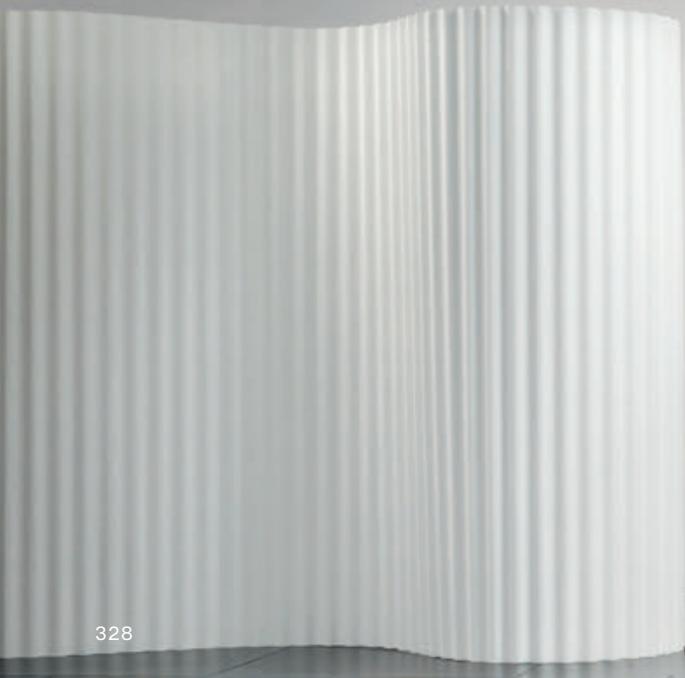

Saturn da soffitto è un imponente anello luminoso. Il diffusore opalino, disponibile in due diametri, emana una luce ambientale uniforme e altamente performante che lo rende ideale per i grandi spazi dell'architettura contemporanea. La versione a parete, grazie alla sua geometria "a tornante", è la soluzione per composizioni singole o in serie dinamiche. • **Diffusore in polietilene, montatura in metallo. Finitura: bianco.**

Die Deckenleuchte Saturn ist ein imponierender Leuchtring. Der milchige Diffusor, erhältlich in zwei Durchmessern, strahlt ein gleichmäßiges und leistungsstarkes Raumlicht aus, das ihn ideal für die großen Räume der zeitgenössischen Architektur macht. In der Wandleuchtenversion ist Saturn dank seiner „Serpentinen“-Geometrie die Lösung für Einzelkompositionen oder in dynamischer Reihe. • **Diffusor aus Polycarbonat, Gestell aus Metall.**
Ausführung: weiß.

Tablet

2014

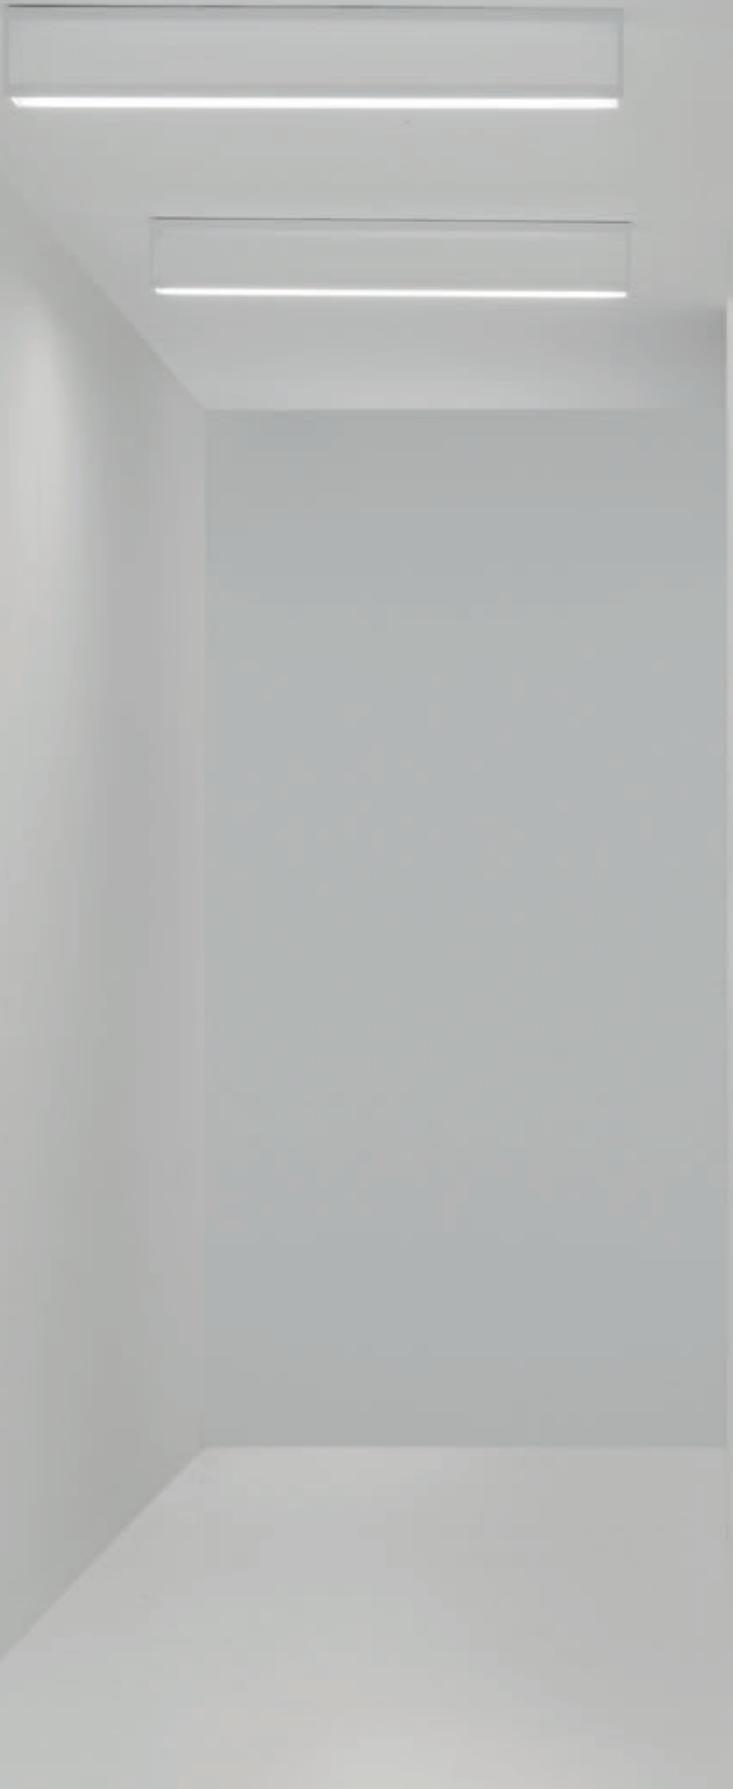

Mirco Crosatto

Tablet is a family of minimalist lamps with adjustable light. A thin, rectangular frame houses the mobile light sources which, thanks to the almost complete rotation on its own axis, allows the orientation of direct, indirect or combined beams of light.

- **Aluminium body, opaline polycarbonate diffuser. Finishes: white, black.**

Tablet è una famiglia di lampade minimali a luce direzionale. In un sottile telaio rettangolare sono incorniciate le sorgenti mobili che, grazie alla rotazione quasi completa sul proprio asse, permettono l'orientamento di fasci luminosi diretti, indiretti o combinati. • **Corpo in alluminio, diffusore in policarbonato opalino. Finiture: bianco, nero.**

Tablet ist eine Familie minimalistischer Leuchten mit ausrichtbarem Licht. In einem dünnen rechteckigen Rahmen stecken die beweglichen Lichtquellen, die dank der praktisch kompletten Drehung um die eigene Achse erlauben, die direkten, indirekten oder kombinierten Lichtbündel auszurichten. • **Lampenkörper aus Aluminium, Diffusor aus milchigem Polycarbonat. Ausführungen: weiß, schwarz.**

Triedro

1970

Joe Colombo

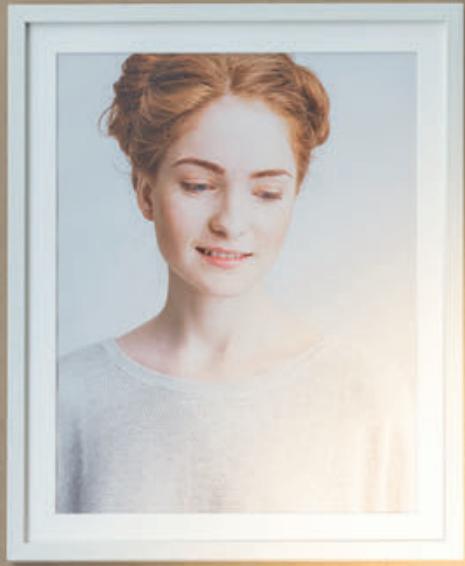

Triedro is reminiscent of lighting from a photo shoot. Housing a silver-domed LED bulb, the lampshade is comprised of three contoured and bent metal parts in order to reflect the light downward, without creating glare. The flexibility in positioning is guaranteed by the supporting double joint for rotation and inclination of the light source into any position. In the clamp version, it secures easily to suit any needs.

- **Metal lampshade, body and bulb holder.**
Finish: white/black.

Triedro rievoca le lampade di scena dei set fotografici. Il paralume, contenente una lampadina LED a cupola argentata, è in metallo sagomato e piegato in tre parti, così da riflettere la luce senza abbagliare. La flessibilità di movimento è garantita dal doppio snodo portante, che permette la rotazione e l'inclinazione della sorgente luminosa in qualsiasi posizione. Nella versione a morsetto si fissa facilmente, per ogni esigenza. • **Paralume, corpo e porta-lampada in metallo. Finitura: bianco/nero.**

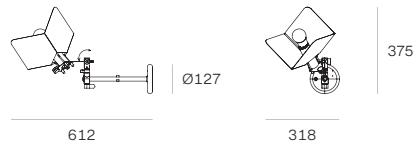

Triedro erinnert an die Szenenleuchten von Fotoshootings. Der Lampenschirm mit einer silbernen kuppförmigen LED-Lampe ist aus geformtem und in drei Teilen gebogenem Metall, sodass das Licht reflektiert wird, ohne zu blenden. Bewegungsflexibilität ist durch das tragende Doppelgelenk gewährleistet, das erlaubt, die Lichtquelle in jeder Position zu drehen und zu kippen. Als Klemmleuchte lässt sie sich leicht für jeden Bedarf befestigen. • **Lampenschirm, Lampenkörper und Fassung aus Metall. Ausführungen: weiß/schwarz.**

Xilema

2014

Edin Dedovic

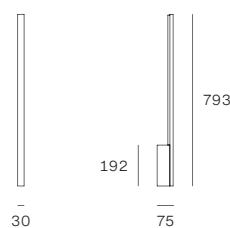

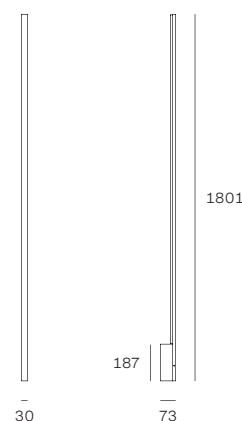

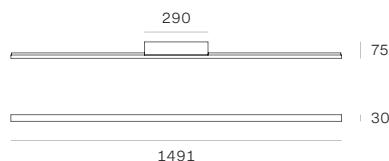

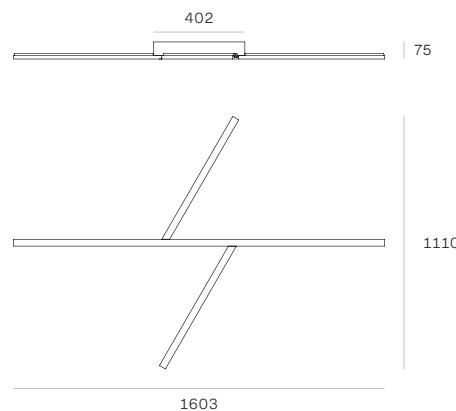

The elegant lightness of Xilema houses a WallWasher toppled light source which, be it vertical or horizontal, diffuses comfortable, indirect ambient illumination. Alongside the linear versions is a more intricate version reminiscent of xilema, the plant tissue that transports water from the roots to the stems and leaves.

- **Aluminium body, PMMA diffuser. Finishes:** white, polished aluminium.

L'elegante leggerezza di Xilema accoglie una sorgente topLED WallWasher che, verticale o orizzontale, diffonde una confortevole luce ambientale indiretta. Le versioni lineari sono affiancate da una variante complessa che ricorda lo xilema, il tessuto che nei vegetali conduce la linfa dalle radici alle foglie. • **Corpo in alluminio, diffusore in PMMA. Finiture:** bianco, alluminio lucido.

Die elegante Leichtigkeit von Xilema nimmt eine Lichtquelle topLED WallWasher auf, die eine angenehme indirekte Raumbeleuchtung vertikal oder horizontal verbreitet. Den linearen Versionen ist eine komplexe Variante zur Seite gestellt worden, die an Xylem, dem Gewebe, das in den Pflanzen den Pflanzensaft von den Wurzeln bis zu den Blätter leitet, erinnert.
• **Lampenkörper aus Aluminium, Diffusor aus PMMA. Ausführung:** weiß, glänzendes Aluminium.

Xilema adjustable

2014

Edin Dedovic

The Xilema consists of aluminium rods that intersect perpendicular to the wall. Able to offer powerful illumination directed upwards, this elegant light fitting bears a WallWasher topLED lights source and – thanks to the wall-mounted pin – can rotate 180° on its vertical axis. It is ideal for modern work environments. • **Aluminium body, PMMA diffuser. Finishes: white, polished aluminium.**

Xilema a braccio è una lunga asta in alluminio, perpendicolare alla parete e capace di una potente illuminazione direzionale verso l'alto. L'elegante lampada monta una sorgente topLED WallWasher e, grazie al perno a parete, può ruotare di 180° sul suo asse orizzontale. Ideale per gli ambienti operativi contemporanei. • **Corpo in alluminio, diffusore in PMMA. Finiture: bianco, alluminio lucido.**

Die Armleuchte Xilema ist eine lange Aluminiumstange, die lotrecht von der Wand absteht und in der Lage ist, mächtig nach oben zu leuchten. Die elegante Leuchte umfasst eine Lichtquelle topLED WallWasher und kann sich dank eines Wandbolzens 180° um ihre horizontale Achse drehen. Ideal für zeitgenössischen Arbeitsumgebungen. • **Lampenkörper aus Aluminium, Diffusor aus PMMA. Ausführung: weiß, glänzendes Aluminium.**

Xilema system

2019

Edin Dedovic

The Xilema System is characterised by high modularity. The lighting structures bear a WallWasher topLED light source, being inter-connected thanks to specific adaptors that allow variable pathways to be created on vertical, horizontal and sloped surfaces. This renders it possible to design lines of continuous illumination, able to adapt to any architectural setting. • **Lighting modules, junctions, ends and power supply modules in aluminium, diffuser in PMMA.** Finishes: white, polished aluminium.

Xilema System è caratterizzato da un'elevata modularità. I corpi illuminanti montano una sorgente topLED WallWasher e si possono connettere fra loro grazie a particolari raccordi che permettono di creare percorsi variabili su superfici verticali, orizzontali ed inclinate. È così possibile disegnare linee di luce continue, in grado di adattarsi a qualsiasi contesto architettonico. • **Moduli illuminanti, giunzioni, finali e moduli di alimentazione in alluminio, diffusore in PMMA.** Finiture: bianco, alluminio lucido.

Xilema System ist durch eine hohe Modularität charakterisiert. Die Leuchtkörper umfassen eine topLED WallWasher Lichtquelle und können mit besonderen Verbindungen miteinander verbunden werden, die erlauben variable Verläufe auf vertikalen, horizontalen und schrägen Oberflächen zu schaffen. Auf diese Weise kann man kontinuierliche Lichtreihen entwerfen, die in der Lage sind, sich sich jedem architektonischen Kontext anzupassen.

• **Leuchtmodule, Verbindungen, Endelemente und Versorgungsmodule aus Aluminium, Diffusor aus PMMA.** Ausführung: weiß, glänzendes Aluminium.

1Night / 2Nights

2016

Davide Oppizzi

1Night offers refined illumination. The powerLED technology is housed in an elegant cylinder that can be rotated and directed as desired, being perfect bedside or in a reading nook. In the 2Nights version, the structure contains coloured texture filters to act as a projector, adorning the wall with multiple light and shadow effects.

- **Body and directable cylinder in aluminium.**

Finishes: white, black, white/galvanic rose gold, black/galvanic gold.

1Night è un raffinato oggetto luminoso. La tecnologia powerLED è alloggiata in un elegante cilindro ruotabile e orientabile a piacere, ideale in prossimità della testiera del letto o per un angolo lettura. Nella variante 2Nights, la struttura si articola per ospitare filtri dalle texture colorate: la sor gente funziona da proiettore, decorando la parete con molteplici effetti di luci e ombre.

- **Corpo e cilindro orientabile in alluminio.**

Finiture: bianco, nero, bianco/galvanica oro rosa, nero/galvanica oro.

1Night ist ein raffinierter Beleuchtungs körper. Die powerLED-Technologie sitzt in einem eleganten, drehbaren und nach Belieben ausrichtbaren Zylinder, ideal für das Bettkopfende oder eine Lesecke. In der Variante 2Nights fächert sich die Konstruktion auf, um Filter mit bunten Texturen aufzunehmen: Die Lichtquelle fungiert als Projektor, der Licht-Schatten-Spiele an die Wand wirft.

- **Ausrichtbarer Körper und Zylinder aus Aluminium.**

Ausführungen: Weiß, schwarz, weiß/galvanisch überzogen in Goldrosa, schwarz/galvanisch überzogen in Gold.

	Driver included	C.V.	Constant Voltage
	Driver not included		UGR <16
	Double emission luminaire		Sound absorbing
	% Emission up and down		Magnetic connection

The lumens indicated refer to the light source emission. The connection diagrams for electronics articles are included in the technical documentation.

I lumen indicati si riferiscono all'emissione della sorgente. Gli schemi di collegamento per gli articoli dell'elettronica sono disponibili all'interno della documentazione tecnica.

Der angegebene Wert in Lumen bezieht sich auf die Abstrahlung der Lichtquelle. Die Anschlusspläne der elektronischen Artikel sind in der technischen Dokumentation enthalten.

Warranty & disclaimer

"**Stilnovo** by Linea Light Group" offers a 5-year warranty on its products against manufacturing defects, subject to filling in the activation form available at www.stilnovo.com. In the absence of activation, the statutory warranty remains valid.

All power supply, wiring and accessories used for product installation shall be original "**Stilnovo** by Linea Light Group" parts or approved by the company. The warranty will become void if non original or non approved parts are used.
For more information, please visit our website www.stilnovo.com.

"**Stilnovo** by Linea Light Group" reserves the right, without any advance notice, to change the characteristics of their products, as well as the availability of the same at any time. No product, relative technical data, illustrations and information in the catalogue are binding for "**Stilnovo** by Linea Light Group". "**Stilnovo** by Linea Light Group" will not be held liable for any illustration, text and/or translation errors. More product characteristics are contained in the relative technical data sheets and instruction sheets. This catalogue is protected by copyright (law 22/04/1941 No. 633 and law 14/12/1942 No. 1485: this prohibits any reproduction, total or even partial). All values indicated in the catalogue are measured values. There is a +/- 10% tolerance for the flow, CCT and power data.

"**Stilnovo** by Linea Light Group" offre una garanzia di 5 anni sui propri prodotti per vizi di fabbricazione previa compilazione dell'apposito modulo di attivazione, disponibile sul sito www.stilnovo.com. In mancanza di attivazione rimane valida la garanzia prevista per legge.

I prodotti devono essere installati tassativamente con alimentazioni, cablaggi e accessori originali di "**Stilnovo** by Linea Light Group", o eventualmente approvati dall'azienda. L'utilizzo di accessori non originali, o non approvati, determina il decadimento di ogni garanzia sul prodotto. Per ulteriori informazioni, consultare il sito www.stilnovo.com

"**Stilnovo** by Linea Light Group" si riserva il diritto, senza alcun preavviso di modificare le caratteristiche dei propri prodotti come la disponibilità degli stessi in qualunque momento. Tutti i prodotti, relativi dati tecnici, illustrazioni e informazioni presenti sul catalogo non sono vincolanti per "**Stilnovo** by Linea Light Group". "**Stilnovo** by Linea Light Group" non risponderà di eventuali errori illustrativi, testuali e/o di traduzione. Ulteriori caratteristiche dei prodotti sono contenute nelle relative schede tecniche e fogli istruzione. Il presente catalogo è tutelato dalla legge sui diritti d'autore (legge 22/04/1941 n. 633 e della legge 14/12/1942 n. 1485: di esso è proibita ogni riproduzione totale o anche parziale). Tutti i valori riportati a catalogo sono valori di misurazione. I dati di flusso, CCT e potenza sono passibili di tolleranze di +/- 10 % .

Die Firma "**Stilnovo** by Linea Light Group" gibt eine Garantie von 5 Jahren auf ihre Produkte in Bezug auf Produktionsfehler. Voraussetzung für die Inanspruchnahme der Garantie ist das Ausfüllen des entsprechenden Formulars zur Aktivierung der Garantie, das auf der Webseite www.stilnovo.com verfügbar ist. Wenn keine Aktivierung der Garantie erfolgt, gilt die gesetzlich vorgeschriebene Garantie.

Die Produkte müssen obligatorisch mit Originalstromversorgung, Originalkabeln und Originalzubehör der "**Stilnovo** by Linea Light Group" oder mit Teilen, die von der Linea Light Group ausdrücklich empfohlen sind, installiert werden. Die Verwendung von nicht originalem oder nicht vom Hersteller empfohlenem Zubehör führt zu einem sofortigen Verfall vom Garantieanspruch für das Produkt. Für weitere Informationen, besuchen Sie bitte www.stilnovo.com

"**Stilnovo** by Linea Light Group" behält sich das Recht vor, ohne jegliche Vorankündigung die Merkmale der eigenen Produkte und deren Verfügbarkeit jederzeit zu ändern. Alle Produkte, die technischen Daten, die Darstellungen und die Informationen im Katalog sind nicht für "**Stilnovo** by Linea Light Group" bindend. "**Stilnovo** by Linea Light Group" haften nicht für etwaige Fehler in der Darstellung, im Text und/oder in der Übersetzung. Weitere Merkmale der Produkte sind in den jeweiligen technischen Datenblättern und in den Anleitungen enthalten. Dieser Katalog wird vom Urheberrecht geschützt (Gesetz Nr. 633 vom 22/04/1941 und Gesetz Nr. 1485 vom 14/12/1942: Die völlig oder auch nur teilweise Vervielfältigung ist verboten). Alle im Katalog angeführten Angaben sind Messwerte. Für die Fluss-, CCT- und Leistungsdaten gelten Toleranzwerte von +/- 10 % .
