Colección de lámparas basada en iluminación LED de alto rendimiento lumínico. PHUKET combina luz indirecta con lectores articulados que nos permite acercar la luz al punto deseado, así mismo, puede ser regulada para conseguir mayor confort lumínico.

Los múltiples acabados; blanco con madera natural, níquel mate, cuero y finalmente antracita con cobre, que permiten su integración a cualquier ambiente, de forma sobria y elegante.

La funcionalidad no está reñida con la estética, ni es impedimento para el desarrollo de elementos con un marcado acento técnico dentro de la iluminación decorativa.

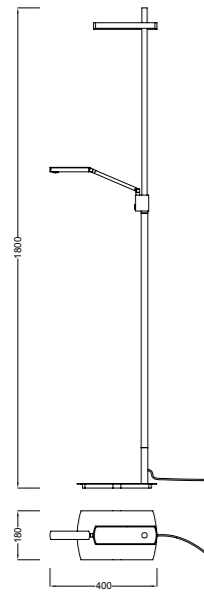

*Collection of lamps with high performance LED lighting. PHUKET combines indirect light with articulated light that allows us to bring light to any point, it can be adjusted for greater lighting comfort.*

*Multiple finishes; white with natural wood, matte nickel, antique brass and finally anthracite with copper, allowing its integration into any environment, in a sober and elegant style.*

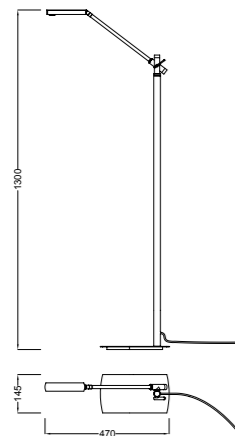

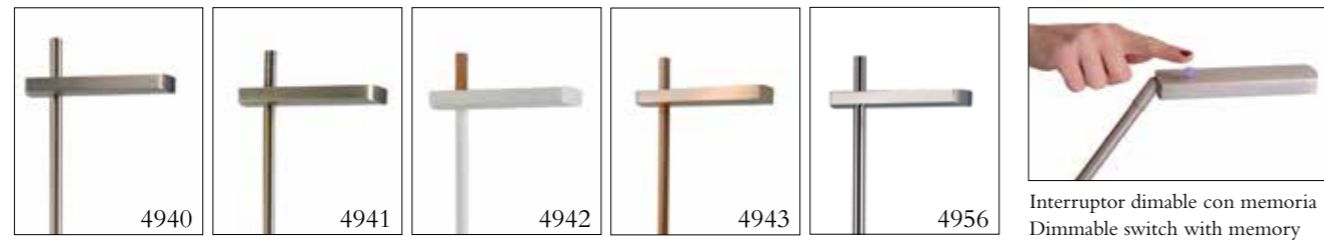

*The functionality is not at odds with aesthetics, it is not an impediment to the development of elements with a strong technical style in decorative lighting.*
