Suitable for lamps up to EEC	A++

Light distribution type 1 direct

Adjustable high-voltage display luminaire of the FILI series. Made from aluminum it is equipped with a curved arm holding the lamp head with incorporated GU10 socket. Thus, the fitting is suitable for LED, energy saving and halogen lamps with different diameters. The installation of the luminaire is made via the attached ceiling canopy. The electrical connection is made directly to 230V mains supply. We alternatively offer a version with display clamp. Accessory includes decorative rings with different diameters to get attached to the bulb of choice. This luminaire is compatible with bulbs of the energy classes: E - A++
